# Colorado State University – Pueblo Undergraduate & Graduate Program Assessment Report for AY 2011-2012 Due: June 1, 2012

**Program:** Automotive Industry Management **Date:** May 29, 2012

Completed by: Cathi Robbe

Please complete this form for <u>each undergraduate, minor, certificate, and graduate program</u> (e.g., B.A., B.S., and M.S.) in your department and return it to Erin Frew, <u>erin.frew@colostate-pueblo.edu</u> as an email attachment before June 1, 2012. You'll also find the form at the assessment website at <a href="http://www.colostate-pueblo.edu/Assessment/Resources/Pages/default.aspx">http://www.colostate-pueblo.edu/Assessment/Resources/Pages/default.aspx</a>. Thank you.

## I. Program student learning outcomes (SLOs) assessed in this cycle, processes, results, and recommendations.

A. Which of the program SLOs were assessed during this cycle? Please include the outcome(s) verbatim from	B. When was this SLO last assessed?	C. What method was used for assessing the SLO? Please attach a copy of any rubrics used in the	D. Who was assessed? Please fully describe the student group.	E. What is the expected achievement level and how many students should be at	F. What were the results of the assessment?	G. What were the department's conclusions about student performance?	H. What changes/improvements to the <u>program</u> are planned based on this assessment?

### **Comments:**

- 1. Review of the nine **AIM Student Portfolios** was difficult for the AIM faculty. Since most of the information in the student files was from previous instructors it was hard to evaluate the Student Learning Outcomes (SLO). The current AIM faculty will institute pre testing for each course they teach and follow up with the expected learning outcomes and goals as they relate to the AIM Assessment. It will be beneficial for instructors or others that review the portfolios if comments are made on the assignments or works in the file.
- 2. The **AIM Advisory Committee** was unable to arrange a meeting time for fall 2011 or spring 2012. One was set for October of 2011 but do to lack of participation or a convenient meeting time did not occur. An informal meeting was held on April 19 to discuss further plans and the objective of the AIM Advisory Committee. Tyrell Smith (AIM Assistant Professor) and Jeremy Maxwell (AIM Alumni & Advisory Chair) will work to organize a formal meeting in fall of 2012 semester.

The AIM faculty has completed two cycles of the **Course Report Forms** and can use as a tool to evaluate their teaching along with the **Student Evaluations** provided each semester. It continues to be the instructors; Department Chair and CEEPS Dean Responsibility to react to student comments and suggestions

# B. Follow-up (closing the loop) on results and activities from previous assessment cycles. In this section, please describe actions taken during this cycle that were based on, or implemented to address, the results of assessment from previous cycles.

			265 and AIM 425. Conduct	
			issues have been addressed	
			to the Department Chair.	

### **Comments:**

It was the intent to complete another Exit Survey in the spring of 2012, this task was not completed. Another Exit Survey will be completed in spring 2013—as to allow students and the AIM faculty to have more time to react to previous concerns.

## \*Student Outcomes for AIM

AIM graduates are expected to complete the following outcomes.

## Students will be expected to:

- 1. Analyze profitability, efficiency and productivity using automotive financial documents and determine an appropriate managerial course of action.
- 2. Manage and implement retail inventory controls systems including loss sales reporting, pricing, and benchmarking and distribution systems
- 3. Recognize and apply proper health, safety, and environmental regulations based on federal and state standards.
- 4. Demonstrate critical thinking and problem solving in the diagnosis and service of automotive systems.
- 5. Effectively communicate concern, cause, correction and confirmation regarding vehicle diagnosis and service to both the technician and/or customer.
- 6. Develop professional writing and oral presentation skills regarding techniques for selling in the automotive industry.
- 7. Develop employment seeking skills and compile a professional development portfolio commensurate with AIM degree and entry level management positions within the automotive industry.
