This emphasis is for students who are interested in the dietetics or medical nutrition therapy areas. The program entails 5 semesters of coursework in CSU-Pueblo courses (73-83 credits), followed by application, acceptance and transfer of credits to complete a Bachelor's degree program in Nutrition during three additional semesters at another institution. There are three Nutrition programs in Colorado, and we have transfer agreements with the first two:

- UCCS Health Science Nutrition Program in Colorado Springs
<http://www.uccs.edu/bethel/programs/nutrition.html>
- CSU-Fort Collins Nutrition and Food Science program
<http://www.fshn.chhs.colostate.edu/students/undergraduate/nutrition-food-science/index.aspx>
- UNC Nutrition program in Greeley
<http://www.unco.edu/nhs/dietetics/>

These didactic programs of courses are approved by the Academy of Nutrition and Dietetics and prepare students for the 6-12 month internship necessary for Registered Dietitian certification. The Commission on Dietetic Registration (CDR) administers the certification exam for Registered Dietitians.

Registered dietitians work in hospitals, HMOs or other health care facilities, sports nutrition and corporate wellness programs, food and nutrition-related businesses and industries, private practice, community and public health, universities and medical centers.
