

Real Colors®

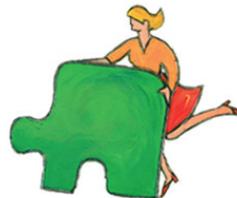

Presented by

Ever wonder why people act the way they do? How some people go with the flow while others need more control? Why some are on time and others never are? How when someone cries you either cry with them or get uncomfortable? How a few people drive you crazy? Yet with others you share an immediate connection? When sometimes you just know the right answer? While others deliberate forever? Real Colors® is the answer...

Simple

Real Colors® makes communication simple!

Fun

Learn and laugh at the same time!

Interactive

Get to know people in new and different ways!

Engaging

Lets you be in charge of your learning!

Imagine having the ability to clearly communicate your thoughts and ideas to almost anyone and be understood. Imagine connecting with people in a way you never have before.

This power is unlocked with Real Colors®; a temperament-based assessment (nature vs. nurture), based on the groundbreaking research of Meyers-Briggs (MBTI) and David Keirsey. Real Colors® was designed to simplify the process of understanding human behavior and help you to see your strengths and the strengths of others in action.

Real Colors® provides you with a fun and interactive way to learn about one other and to walk away with tools and knowledge for creating a more

effective, high- performing teams, better service, and improved communication.

Teams that are given the opportunity to have this insight into the way that their fellow team members think and work are proven to be more productive and understand one another better.

Your Real Colors® Master Facilitator will take you through a series of activities designed to help you get the most from your experience.

Your Real Colors® experience also depends on you! We ask that you come to your workshop with an open mind and a sense of humor, along with a can do attitude, ready and willing to challenge your own ways of thinking!
