

First Christmas

Dear (Child's name),

My precious little one, your birth has brought much joy to me, and I have been thinking about you since the moment I heard you were born. In the village of North Pole, we know when every child is born because a loud bell chimes in the clock tower and the whole village celebrates the moment.

Mrs. Claus and I already know what a sweet little baby you are and your (Family Members) are overjoyed that you came into their lives. I am so excited to be adding you to my Christmas list this year! As you grow older, you will begin to understand the magic of Christmas and it will capture your heart.

Here at the North Pole we are always in a playful mood. Between snowball games with the elves and playing with the reindeer, we have a full day of activities. In the evening, we build a bonfire and sing Christmas carols while sipping hot cocoa. Soon I will select a special toy from my workshop and deliver it to your home in (City).

When I arrive on Christmas Eve I know you will be fast asleep. I will leave your special gift under the tree and I will check on you before I depart. Enjoy your first Christmas in the loving care of your family. Merry Christmas little one!

Love,

Santa Claus
