

First Christmas

Dear (Child's name),

Merry Christmas! And what a special Christmas it is; your very first one. This Christmas is sure to be extra-special for your family because you are here to share it with them.

While I am delivering presents to your house on Christmas Eve, I will peek into your room to make sure the reindeer didn't wake you up when they landed on your roof. Their hooves can get a little noisy.

You're such a sweet baby! I hope you have a wonderful first Christmas. Enjoy your family, who love you so much. Also, have fun opening your presents. Did you know it's OK to tear the wrapping paper? Get into it and have fun!

Love,

Santa
