

First Christmas

Dear (Child's name),

I see that I have a new name to add to my "nice" list from now on! Welcome to the world, little baby. I hope your first Christmas is as special as you are.

I love to bring presents to little children, and that includes babies! I just loaded up my sleigh with stuffed animals, toys and games and the reindeers and I will soon take to the skies. I will put your present under the tree and on Christmas morning you get to help rip the wrapping paper right off and see what surprise I brought you.

(Family Members) must be so excited for your first Christmas. In fact, I remember your (Relative Title) wishing for a sweet little baby not too long ago. Now here you are - the best gift anyone could ask for!

I'm looking forward to bringing your (Present) on Christmas Eve. I hope you sleep well that night so you can wake up happy and ready for the fun. We'll try not to make too much noise when we land on your roof. I hope you don't mind if I peek in and take a look at you while you're sleeping. Babies make the holidays extra magical!

Love,

Santa
