

Dear (Child's name)

Well, it's been a busy year my little friend and I'm delighted to be thinking of you again this Christmas. Only the other day my elves were telling me just what a good (gender) you've been these past twelve months. And you're (age) years old now! My, my, time flies like my sleigh these days - Ho, Ho, Ho! Anyway, I took it upon myself to keep a little eye on you down there in (city) and I have to say I've been wonderfully impressed. Absolutely ten out of ten for good behavior my little (gender)! Even better than last year, which is excellent progress.

I was out walking in the snow with Mrs. Claus last night and I mentioned your fabulous behavior and you know what? She was so happy to hear all about your tidy bedroom and all that you have learned, that she said you deserve something extra special this year. You're a lucky young (gender)!! So I've instructed my elves to use an extra portion of magic stardust on your Christmas wish. In fact, I can hear my trusty helpers busily working away in the workroom as I write. Ho, Ho, Ho, I can just picture your happy smile on Christmas morning. I do love making Christmas dreams come true!

It is time for me to feed the reindeer. I hope the jingle of my sleigh bells won't wake you on Christmas Eve.

Much love and thanks once again for being such a good (gender).

Love,

Santa
