ACCTG 201

Principles of Financial Accounting

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall and Summer

Format Offered: Learn by Term

Catalog Description:

Introduction to accounting as the language of business. Emphasis is on reasoning and logic of an external reporting model. May include computer-based applications. Prerequisite: MATH 121.

Course Description:

This course is designed to assist you in developing an understanding in basic accounting techniques with an emphasis on the accounting cycle, analysis of financial statements, payables and receivables, plant assets, inventories and internal controls for cash.

Course Requirements:

There are 15 chapter homework assignments (20 points each), 6 chapter exams (100 points each), and a midterm and a final exam (100 points each), for a total of 1000 possible points. Exams require a proctor.

Required Course Books and Materials:

Miller-Nobles, Tracie L., Mattison, Brenda L., and Matsumura, Ella Mae (201). Horngren's Financial and Managerial Accounting, The Financial Chapters. My AccountingLab with Pearson eText (5th Ed.) Person Publishers.

MyAccounting Lab + E-text: ISBN: 0133877280 and ISBN: 9780133877281

Instant Access is the best price and you buy it directly from MyAccounting Lab.

MyAccounting Lab + E-text + Print book: ISBN: 0134078934 and ISBN: 9780134078939

Instant Access is not available for this option.

Online study aids are highly recommended. 1. IF you will take both Acctg 201 and Acctg 202 with me through Extended Studies, then you least expensive option is to buy both texts in a package that includes 2 semesters of MyAccounting Lab.

MyAccounting Lab + E-text:

ISBN 0133877604 and ISBN 9780133877601

Instant Access is the best price and you buy it directly from MyAccounting Lab.

MyAccounting Lab + E-text + Print book:

ISBN 013407890X and 9780134078908

ACCTG 202

Principles of Managerial Accounting

3 Credit Hours

\$555 Tuition*

Terms Offered: Spring, and Summer

Format Offered: Learn by Term

Catalog Description:

Managerial uses of accounting information, including cost-based, decision making, differential accounting, and responsibility accounting. May include computer-based applications. Prerequisite: ACCTG 201.

Course Description:

This course is designed to assist you in developing an understanding in how management accounting functions within organizations, including cost concepts, activity based costing, process costing, cost behavior, profit planning and decision making.

Course Requirements:

There are eleven chapter homework assignments (50 points each), a midterm and final exam (100 points each), for a total of 750 possible points. Exams require a proctor.

Required Course Books and Materials:

Miller-Nobles, Tracie L., Mattison, Brenda L., and Matsumura, Ella Mae (201). Horngren's Financial and Managerial Accounting, The Financial Chapters. My AccountingLab with Pearson eText (5th Ed.) Person Publishers. MyAccounting Lab + E-text:

ISBN 0133877248 and ISBN 9780133877243

Instant Access is the best price and you buy it directly from MyAccounting Lab. or MyAccounting Lab + E-text + Print book:

ISBN 0134078926 and 9780134078922

Instant Access is not available for this option.

Online study aids are highly recommended

ANTHR 100

Cultural Anthropology

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Introduction to the concepts by which anthropology understands particular lifestyles, and to the constructs by which it accounts for similarities and differences among lifestyles.

Course Description:

Anthropology, more than any other discipline, focuses on the broad spectrum of the human condition by looking at societies from around the world and from all times. We may see behaviors and values that, at first, appear strange, illogical, and maybe even disquieting. This course will explore the variety of human experiences by focusing on institutions, such as marriage or the family, and the variety of forms that they take in the many societies that inhabit our world. It is my hope that, if you are in a position to influence the outcome of cultural change, this course will enable that outcome to be positive.

Course Requirements:

There are eight modules in this course. Each module requires that you read one or more chapters from the text and from the companion volume. You will then be called on to write an essay or essays that are based on those readings. There are 5 writing assignments for the course. There are no exams.

Required Course Books and Materials:

Ember, C. and Ember, M. (2007). Cultural Anthropology (12th Ed). New Jersey: Prentice Hall. ISBN-13: 978-0132197335

Ember, Carol R. and Ember, Melvin. (2006). Discovering Anthropology: Researchers at work- Cultural Anthropology. New Jersey: Prentice Hall. ISBN-13: 978-0132197069 Packaged with Cultural Anthropology when purchased at CSU-Pueblo Bookstore

ART 100

Visual Dynamics

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Appreciation and understanding of visual experiences and techniques reflecting the cultural dynamics of creativity.

Course Description:

Art 100 is intended to help you become more aware of the visual arts: various ways of thinking about and looking at art; art elements and design principles that artists use in creating works of art; materials and techniques artists use; an overview of the history of art; ideas and themes that artists have explored; and functions and roles of art and artists in different times and places throughout history.

Course Requirements:

This course includes two 2 page short written assignments, one 4-6 page reaction paper, and three (3) open-note (not open-book) exams. The exams will include multiple choice, matching, short answer, short essay, and essay questions taken directly from the assigned text. The exams require a proctor.

Required Course Books and Materials:

Sayre, H. (2013). A World of Art. (7th Ed.) Pearson. ISBN-13: 978-0205887576

OR

Sayre, H. (2010). A World of Art. (6th Ed.) Pearson. ISBN-13: 978-0205677207

ART 211

History of Art I

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

A survey of world art from prehistory to ca. 1300 CE. Introduces issues related to visual design, historical context, and interpretation of works of art.

Course Description:

This course is the first part of a two-part general survey of art work from prehistory to the present time. This course examines the historical development of the visual arts from prehistoric times to the great early civilizations up to art form the Middle Ages to ca. 1300. It also includes a general introduction to early non-Western art. The purpose of the course is to familiarize the student with the important art works, artists, styles, and critical issues about the art of ancient, medieval and non-western cultures.

Course Requirements:

This course covers a vast amount of diverse material from most of the earth's significant civilizations with an emphasis on civilizations in the Eastern tradition. The most important things students can do to be successful in this course are to complete the reading assignments and study guides for each chapter. The course includes two 3-4 page written assignments and four (4) proctored exams.

Required Course Books and Materials:

Gardner's Art through the Ages, 15th ed., vol.1 by Fred S. Kleiner (Thomson / Wadsworth 2016).
ISBN: 978-1-285-83784-0

BIOL 112

Nutrition

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Analysis of personal dietary habits and behavior in relation to basic human nutritional needs and food composition.

Course Description:

To offer learning opportunities within which students can create a base of knowledge and an understanding of principles and concepts that represent the foundation of the science of human nutrition.

To provide opportunities for students to become aware of the problems, interconnections and solutions related to the major challenges facing humankind in relation to food and nutrition.

To facilitate the development of awareness of personal values, attitudes and beliefs about nutrition and the roles that nutrition plays in contributing healthy life styles.

Course Requirements:

There are four (4) proctored examinations in this course. Assignments include a Personal Reflective Learning Journal, Nutritional Awareness Experiences, and a Personal Dietary Analysis. The opportunity to earn extra credit points will also be available.

Required Course Books and Materials:

Textbook: Wardlaw's Contemporary Nutrition. Smith, Anne M and Angela L. Collene. 2016. Tenth Edition. McGraw-Hill, New York. 655p. ISBN- 978-0-07-802137-4.

Nutrition dietary analysis software: NutriCalc Plus+ (available online - www.nutricalc.com. or from the CSU-Pueblo Bookstore)

BIOL 121

Environmental Conservation

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Historical review of humankind's interrelationship with and impact on the natural environment. Basic principles of ecology and current issues relating to the use of natural resources and environmental problems.

Course Description:

To offer learning opportunities with which students can create a base of knowledge and an understanding of principles and concepts that form the foundation of environmental science. To provide opportunities for students to become aware of the problems, interconnections and solutions to the major challenges facing humankind in using the Earth's natural resource capital to support human activity. To facilitate the development of student awareness of their personal interactions and relationship with the natural world.

Course Requirements:

This course has four (4) proctored exams. Students are also required to complete a Personal Reflective Learning Journal in which they will record their thoughts about each textbook chapter, answer critical thinking questions, and summarize a current event relating to each chapter.

Required Course Books and Materials:

Miller, G. Tyler and Scott E. Spoolman. 2013. 14th Edition. Environmental Science. Brooks/Cole Cengage Publishing Co., Pacific Grove, CA. 465 p. ISBN-13: 978-1- 111- 98893 - 7.

Additional Course Information

This is a/n Lower division course.

This is a Science General Education Course.

This course is a Colorado Guaranteed Transfer Course.

Identification of a proctor IS required for this course

Internet access is not required for this course.

BIOL 121L

Environmental Conservation Lab

1 Credit Hours

\$185 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Optional field studies to accompany BIOL 121. Co-requisite: BIOL 121.

Course Description:

To facilitate the development of personal awareness of the interrelatedness among human beings and the rest of the natural world and to experience applications of some of the principles of environmental science that underpin human use of our natural capital.

Course Requirements:

Students will record a total of eight Environmental Awareness Experiences in a Personal Reflective Learning Journal. They will also complete a Power Point presentation term project. There are no exams for this lab course.

Required Course Books and Materials:

NONE

Additional Course Information

This is a/n Lower division course.

This is a Science General Education Course.

This course is a Colorado Guaranteed Transfer Course.

Identification of a proctor is not required for this course

BUSAD 265

Inferential Statistics and Problem Solving

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Statistical methods in business, sampling, parameter estimation, hypothesis testing, correlation, multiple regression, and chi square tests. Use of problem solving methods. Prerequisite: MATH 121.

Course Description:

This course is designed to transform you into an investigator in the fine art of drawing conclusions from data using standard descriptive and inferential statistics methods. Throughout this course, you will gain an understanding of the underlying theory behind topics such as types of data, various data sources, data organization, measures of central tendency and variation, probability, and probability distributions. You will also learn concepts of hypothesis testing and how to analyze the following situations: binomial, multinomial and contingency tables.

Course Requirements:

There are eight assignments and three (3) proctored exams in this course.

Required Course Books and Materials:

Black, Ken. Wiley (2013). Business Statistics for Contemporary Decision Making (8th Edition). ISBN13: 978-1-118-49476-9.

Additional Course Information

This is a/n Lower division course.

This is not a General Education Course.

This course is not a Colorado Guaranteed Transfer Course.

Identification of a proctor IS required for this course

Internet access is not required for this course.

BUSAD 302

Ethics in Business

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Examination of issues addressing ethical, legal, social, and environmental responsibilities of businesses toward government, customers, employees, and the general public. Prerequisite: Junior standing.

Course Description:

The study of the impact of continued social, political, economic, technological and legal pressures on ethical business practices and managerial decision-making. The student will gain knowledge of and analyze the following areas of business and business ethics through a combination of theory and situational analysis.

Course Requirements:

The student will respond to questions from each of the fourteen (14) chapters in the textbook and take a comprehensive final exam which covers the material that the student responded to in the questions. The student is expected to read the chapters.

Required Course Books and Materials:

Lawrence, A. and Weber, J. (2013). Business and Society, Stakeholders, Ethics, Public Policy. (14th Ed). McGraw-Hill Irwin. ISBN-13: 978-0078029479

Additional Course Information

This is a/n Upper division course.

This is not a General Education Course.

This course is not a Colorado Guaranteed Transfer Course.

Identification of a proctor IS required for this course

Internet access is not required for this course.

CHEM 101

Chemistry and Society

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Chemistry related to the everyday world. Drugs, food, pollution, pesticides, consumer products, energy, and home health. Principally for non-science majors. Videos Required.

Course Description:

This course is designed to teach the concepts of introductory chemistry for the non-science major. Emphasis is on the application of basic chemistry to real world applications and everyday life. The course consists of reading assignments in the course textbook and viewing video segments that accompany the textbook. Note: the video and the reading are meant to be complementary, not exact duplicates of one another.

Course Requirements:

In order to achieve successful completion of this course, you must complete two (2) exams (Midterm and Final) and one 3-page paper. The exams are open-book, open-note, and do not require a proctor.

Required Course Books and Materials:

Joesten, M., Castellion, M., and Hogg, J. (2007). The World of Chemistry: Essentials. (4th Ed.). Cengage-Brooks Cole Publisher. ISBN-13: 9780495012139

Optional online access to additional publisher content: OWL Liberal Arts Chemistry 1-Semester Instant Access Code ISBN-10: 0495110779 | ISBN-13: 9780495110774. Included with The World of Chemistry when purchased through the CSU-Pueblo Bookstore.

Required Videos are available on Blackboard.

Additional Course Information

This is a/n Lower division course.

This is a Science General Education Course.

This course is a Colorado Guaranteed Transfer Course.

Identification of a proctor is not required for this course

Internet access is REQUIRED for this course.

CHEM 101L

Chemistry and Society Lab

1 Credit Hours

\$185 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Laboratory for CHEM 101 is optional. Experiments to exemplify the logical steps of problem solving and explore the physical and chemical world.

Course Description:

A "home-laboratory" to accompany the video lessons for Chemistry and Society (CHEM 101). A series of laboratory exercises from the World of Chemistry Essentials Study Guide.

The body of knowledge that we call chemistry is a rich and fascinating field of theory and fact, which has been accumulated through laboratory experimentation. This course is an exploration of the techniques of hypothesis, experimentation, and explanation which compose the scientific method.

Course Requirements:

The course consists of ten (10) lab activities from the study guide on the general topics presented in the video portion of the course. There are no examinations for this course.

Required Course Books and Materials:

Course material is provided on Blackboard.

Additional Course Information

This is a/n Lower division course.

This is a Science General Education Course.

This course is a Colorado Guaranteed Transfer Course.

Identification of a proctor is not required for this course

Internet access is not required for this course.

CHEM 211

Introduction to Organic Chemistry

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Survey of organic chemistry chemical structure, reactivity, and functional groups are presented in context of relevance to society. Prerequisite: CHEM 111 with a grade of C or better. Videos Required.

Course Description:

Study of aliphatic and aromatic compounds including current theories, nomenclature, properties, synthesis, reactions, mechanisms, and spectroscopy. Emphasis will be on comprehension, understanding, and applications of molecular behavior and relevance of the subject to everyday life applications. This course is for students requiring a survey of organic chemistry in one semester. It is not intended for Chemistry majors or pre-professional students requiring an in-depth introduction to the subject. Thirteen video tapes or broadcasts of one hour each with correlated assigned readings from the course text and study guide.

Course Requirements:

The course consists of thirteen (13) video lessons of 60 minutes each on general topics for the course. Two (2) exams (Midterm and Final) and one (1) research paper are required in this course. The exams are open-book, open-note, and do not require a proctor.

Required Course Books and Materials:

Joesten, Castellion & Hogg. 4th Ed. (2007). The World of Chemistry Essentials. Cengage-Brooks Cole Publisher. ISBN-10: 0495012130 ISBN-13: 9780495012139

OPTIONAL: Brown, W. and Poon, T. (2005). Introduction to Organic Chemistry: Student Solution Manual. (3rd Ed.). John Wiley Publishing. ISBN-13: 978-0471682639

Additional useful supplement - Molecular Model Kit

Additional Course Information

This is a/n Lower division course.

This is not a General Education Course.

This course is not a Colorado Guaranteed Transfer Course.

Identification of a proctor is not required for this course

Internet access is REQUIRED for this course.

CIS 171

Introduction to JAVA Programming

4 Credit Hours

\$740 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

An introduction to computer programming, design and testing using the Java object-oriented programming language. Topics include language constructs, functions, file handling, inheritance and UML. Prerequisite: CIS 100 or equivalent. Computer and BlackBoard access required.

Course Description:

This course is designed to teach the programming fundamentals such as basic computing concepts, data concepts, parameters and objects, computer graphics, conditional execution, file processing, and arrays. This course will aid students to become good problem-solvers in a computing field through hands-on practices. Student will also learn concepts of an object-oriented program through a basic design, coding, testing, and debugging. The ability to convert problem statements into a programming code is essential in the software engineering industry, and this ability will be developed through the course.

Course Requirements:

The following are the requirements to successfully complete this course: Two (2) proctored exams and nine (9) assignments.

Required Course Books and Materials:

Reges, S. and Stepp, M. (2010). Building Java Programs (2nd Ed.) Addison Wesley. ISBN-13: 978-0136091813

Additional Course Information

This is a/n Lower division course.

This is not a General Education Course.

This course is not a Colorado Guaranteed Transfer Course.

Identification of a proctor IS required for this course

Internet access is REQUIRED for this course.

CIS 365

Management Information Systems

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Introduction to application and management of IT in functional business areas (marketing, finance, accounting, etc.) Includes IT strategy, business intelligence, e-commerce, and enterprise information systems. Prerequisite: CIS 103, 104, 105, MGMT 201 and junior standing.

Course Description:

The purpose of this course is to provide an overview of the role of information technology (IT) and management information systems (MIS) in an organization. Students will learn various information systems and how to select and use the right IT tools to carry out business tasks. Knowledge of IT and MIS is essential in an increasingly competitive and technological business climate. Being able to identify the right technology tools and use them effectively will enhance students' competitiveness.

Course Requirements:

There are 10 quizzes for this course. Each quiz consists of 20 multiple questions and cover each chapter described in the lesson section. There are two exams for this course. None are cumulative; each covers material from a select set of chapters from the text, as noted in the lesson section of this syllabus.

Required Course Books and Materials:

Kroenke, D. (3rd Edition). MIS Essentials. Pearson Prentice Hall. ISBN-13: 978-013-297075-4

Additional Course Information

This is a/n Upper division course.

This is not a General Education Course.

This course is not a Colorado Guaranteed Transfer Course.

Identification of a proctor IS required for this course

Internet access is not required for this course.

ECON 201

Principles of Macroeconomics

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Applications oriented approach to understanding the economy including monetary policy, deficits and surpluses, international issues; fundamental differences between liberal and conservative economic policies. Videos Required.

Course Description:

Business decisions are influenced by overall economic conditions. Macroeconomics provides the basis for the understanding of these overall (or macro) economic conditions.

Course Requirements:

There are two (2) proctored exams for this course as well as three (3) assignments (homework) that are found at the end of each lecture in the lecture and study guide.

Students will also complete one (1) newspaper or magazine article review. Papers are to be typed, double spaced, and no longer than 3 pages.

Required Course Books and Materials:

Optional: Baumol, W. and Blinder, A. (2007) Macroeconomics: Principles and Policy. (10th Ed.) South-Western College Publishers. ISBN-13: 978-0-324-53703-1

Duncan, K. Principles of Macroeconomics Lecture and Study Guide. ISBN: 978-2222211754 (This is supplied on blackboard but a hard copy is available for purchase in the CSU-Pueblo Book store)

Required Videos are available on Blackboard.

Internet access is REQUIRED for this course.

ECON 202

Principles of Microeconomics

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Illustrates how firms make price, wage, and profit maximizing decisions. Other topics include market performance, market failure, environmental issues, and government intervention. Videos Required.

Course Description:

While microeconomics is concerned with scarcity, we also explore many topics of interest to business students and practitioners.

Course Requirements:

There are two (2) proctored exams for this course as well as three (3) assignments (homework) that are found at the end of each lecture in the lecture and study guide.

Students will also complete one newspaper or magazine article review. Papers are to be typed, double spaced, and no longer than 3 pages.

Required Course Books and Materials:

Optional: Baumol, W. and Blinder, A. (2007) Microeconomics: Principles and Policy. (10th Ed.) South-Western College Publishers. ISBN-13: 978-0324537017

Duncan, K. Principles of Microeconomics Lecture and Study Guide. Only Available through CSU-Pueblo Bookstore. ISBN-13: 978-2222211358 (This is supplied on blackboard but a hard copy is available for purchase in the CSU-Pueblo Book store)

Required Videos are available on Blackboard.

ENG 101

Composition I

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Emphasis on critical thinking, reading, and writing clear and coherent essays that reflect an understanding of the writing process, rhetorical analysis, argumentation, and academic discourse. Prerequisite: English 099, or ACT verbal score of at least 18, or SAT verbal score of at least 440, or an Accuplacer test score of at least 95.

Course Description:

The primary goal of English 101 is to introduce students to the rhetorical techniques that provide the basis for academic writing. In this course, you will improve your ability to read and analyze arguments from a variety of genres, and you will better understand the four-way relationship among critical thinking, reading, writing, and audience.

Course Requirements:

Students will complete a "Writer's Journal" in which they respond to all reading assignments from Analyzing Rhetorical Strategies. Students will complete three (3) critical analyses of assigned readings in the form of essays that will be 3-5 pages each with a works-cited page. Each of the three major writing projects must be submitted with one rough draft. There are no exams.

Required Course Books and Materials:

Faigley, L. and Selzer, J. (2010). Good Reasons, Researching and Writing Effective Arguments. (4th Ed.) New York: Longman. ISBN-13: 978-0321513908

First Year Composition Program Committee, Colorado State University-Pueblo. (2009). Analyzing Rhetorical Strategies. Southlake, TX: Fountainhead Press. Print. ONLY available through the CSU-Pueblo Bookstore.

Internet access is not required for this course.

ENG 102

Composition II

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Sequential course providing continued engagement with critical thinking, reading, argumentation, and using rhetorical techniques in academic writing. Emphasis on research strategies. Prerequisite: ENG 101.

Course Description:

The primary goal of English 102 is to use academic research and effective argumentation as a means to further develop the communication skills, civic discourse, and rhetorical strategies you were exposed to in English 101. In this course, you will continue to read and analyze arguments from a variety of genres, and you will learn the necessary components of effective academic research. Most importantly, you will research, develop, and experiment with original and effective arguments of your own.

Course Requirements:

Students will complete a "Writer's Journal" in which they will respond to daily reading and homework assignments. Students will compose a total of six (6) argumentative essays, each of which will be 4-6 pages plus a works-cited page. Each of the six major writing projects must be submitted with one rough draft. There are no exams.

Required Course Books and Materials:

Miller-Cochran, Susan Roy Tamper and Stacey Cochran. *An Insider's Guide to Academic Writing*. Boston: Bedford/St. Martin's, 2016. Print.
ISBN: 978-0-312-56676-0

Additional Course Information

Introduction to Literature

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Introduction to the three major literary genres: fiction, poetry, and drama. The main emphasis is on close reading and textual analysis.

Course Description:

In this course, students will gain a critical awareness of the possibilities and the limitations of these three primary genres of literature. Though the course, naturally, cannot be exhaustive, through regular close readings and in-depth textual analysis, students will gain a framework through which they will be able to conduct similar analyses of a variety of texts they might encounter in their professional and academic lives. Bringing the past into the present, this innovative course will focus on literature as part of a fluid, living conversation across cultures, genres, and time periods.

Course Requirements:

There are ten (10) 1- 2 page personal responses (3 for each genre – Fiction, Poetry, Drama, + 1 at the end of class) and three (3) “Genre” essays (3-4 pages each), one for each genre: Fiction, Poetry, Drama. Each of the three essays must be submitted with at least one rough draft. There are no exams.

Required Course Books and Materials:

Brereton, J. (2007). Living Literature: An Introduction to Fiction, Poetry, Drama. Longman Publishing.
ISBN-13: 9780321088994

ENG 241

Women in Literature

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Intensive study of literature written by women in historical, cultural, and critical contexts. Prerequisite ENG 102.

Course Description:

This class will examine and explore the role of literary expression in defining, understanding and communicating the experience of being alive and female, as it has been expressed in texts written in the English Language.

Course Requirements:

This course requires five Essays, each essay will be centered around the ASSIGNED readings in each of the designated historical eras we will explore: The Renaissance, Literature of the early Nineteenth Century, Literature of the late Nineteenth Century, Literature of the Twentieth Century Literature, and Literature of the Twenty-First Century (4-6 pages/ea.).

Required Course Books and Materials:

Behn, Aphra. (1999). Oroonoko; or The Royal Slave. Bedford/ St Matrin's. ISBN 13: 9780312108137

Shelley, Marry. (2000) Frankenstein. (2nd Ed). Bedford/St. Martin's. ISBN-13: 978-0-312-19126-9

Chopin, Kate. (1999) The Awakening, (2nd Ed). ISBN-13: 978-0-312-19575-5

Duffy, Carol Ann. (2000) The World's Wife. Picador. ISBN13: 978-0330372220

Patchett, Ann. (2001). Bel Canto. Harper. ISBN: 978-0061565311

ENG 354

Women Writers of Science Fiction

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Classic and contemporary science fiction written by women.

Course Description:

This course is designed to introduce students to the world of science fiction literature – written by women. Perhaps an easier way to define the class is if we think of the readings as “feminist” first and “science fiction” second. Feminist science fiction poses questions about social issues such as how society constructs gender roles, the role reproduction plays in defining gender, and the unequal political and personal power of men and women.

Course Requirements:

This course requires Four (4) Critical Essays: One each on Frankenstein, Kindred, The Handmaid’s Tale, and The Host (3-5 pages/ea. + Works Cited Page).

One (1) Research Paper (6-8 pages + Works Cited Page) is required on a text of your choosing along with a rough draft. You will be able to select your text from the list provided in the syllabus. There are no exams.

Required Course Books and Materials:

5 Required Texts:

- 1) Shelley, Mary. Frankenstein (NORTON CRITICAL EDITION). (1996). Norton. ISBN 13: 978-0393964585.
- 2) Atwood, Margaret. The Handmaid's Tale. (1998). Random House. ISBN-13: 9780385490818.
- 3) Butler, Octavia. Kindred. (2004). Beacon. ISBN-13: 9780807083697.
- 4) Meyer, Stephanie. The Host. (2008). Little, Brown, & Company. ISBN-13: 9780316068048
- 5) One novel of your choice, from provided list

ENG 370

Rediscovering the Fairy Tale

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

The Fairy Tale: Its history, psychological basis, relationship to mythology, and transformations in poetry, film, music, and visual art.

Course Description:

The course will begin with the knowledge that myths hold the collected wisdom of a culture. Myths become stories that explain the creation of the cosmos and the reasons for the characteristics of the Earth, animals, plants, and even human beings. Myths pass on a culture's supernatural traditions, its gods, and its heroes. They reflect how the individual relates to his or her culture and to the universe. Human beings use myths as a way to explain life's many complex mysteries. By the end of the course, you should also see the ways in which myths teach us to live and bridge our consciousness with transcendent, universal realms, all the while instilling in us a sense of awe, humility, and respect for the mysteries of the universe.

Course Requirements:

This course requires six (6) essays, each on a different fairy tale (4-6 page each plus a works cited page). A copy of one rough draft must be included with each essay. There are no exams.

Required Course Books and Materials:

Tatar, M. (1999). The Classic Fairy Tales. Norton. ISBN-13: 978-0393972771

Additional Course Information

This is a/n Upper division course.

FIN 330

Principles of Finance

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Principles of finance involved in problems confronting business organizations. Prerequisite: ACCTG 202, ECON 201, ECON 202, BUSAD 265 or MATH 156, and Junior standing.

Course Description:

This course is an introductory course where students are required to master the fundamental principles of finance beginning with the recognition that the ultimate objective of financial management is the creation of shareholders' wealth. This course covers topics related to financial institutions and markets, financial statements and analysis, estimating operating and free cash flows, the time value of money, valuations of financial instruments such as bonds and stocks, measurement of risk and reward, the cost of capital, planning for and evaluating long-term capital projects, leverage and capital structure.

Course Requirements:

There are three (3) multiple choice exams for this course including two midterm exams and one comprehensive final exam. The exams require a proctor. A research project paper is also assigned for the course.

Required Course Books and Materials:

Gitman, L. J and Zutter, C. J. (2015). Principles of Managerial Finance. (14th ed.). Prentice Hall. ISBN: 978-0133507690

Internet access is not required for this course.

GEOG 101

Physical Geography

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Three Earth spheres: the hydrosphere (oceanography, hydrologic cycle); the atmosphere (meteorology and climatology); and the lithosphere (geology, internal/external processes) are emphasized and examined.

Course Description:

Physical geography focuses on the Earth's physical landscape. Its task is to describe and explain the components of the natural environment, their distribution and processes involving their interrelationships. To Accomplish this, physical geographers draw on several natural sciences, among them sciences of the atmosphere (meteorology, climatology), oceans (oceanography), solid earth (geology), landforms (geomorphology), soils (soil science) and vegetation (plant ecology, biogeography). As a branch of geography, physical geography also emphasizes spatial relationships – the systematic arrangements of environmental elements into regions over the earth's surface as well as the causes of those patterns.

Course Requirements:

Students are required to submit eleven (11) assignments. Each assignment has required reading with review questions at the end of each chapter and corresponding lab activities. Students are also required to submit six (6) newspaper, news magazines, or internet article summaries (1-2 pages each) organized into a portfolio. There are no exams.

Required Course Books and Materials:

McKnight, T. and Hess, D. (2008). Physical Geography: A Landscape Appreciation (9th Ed). Prentice Hall. ISBN 13: 978-0132239011.

Hess, D. (2007). Laboratory Manual for Physical Geography: A Landscape Appreciation. (9th Ed). Prentice-Hall. ISBN-13: 978-0132381130

GEOG 102

Cultural Geography

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Emphasis on cultural regions, cultural diffusion, and cultural landscape. Major themes are culture, population, agriculture, language and religion, ethnicity, urbanization, industry, and political geography.

Course Description:

The contemporary world is experiencing unprecedented change. These changes, along with a deepening concern over threats to our physical environment, heightened public awareness of the importance of geography and geographic study as a vital component in educating people for responsible global citizenship in the 21st century. This course is organized around the concepts of cultural regions, cultural diffusion, cultural ecology, cultural integration and cultural landscape. These five themes are applied throughout various systematic studies of population, agriculture, political geography, cities, industries and transportation.

Course Requirements:

For this course, students are required to complete twenty (20) map exercises, answer critical thinking questions for each chapter, and write two (2) essays. Essay topics are chosen topics from a list of thirty (30) possible questions in the syllabus. There are no exams.

Required Course Books and Materials:

Rubenstein, J. (2004). *The Cultural Landscape: An Introduction to Human Geography*. (8th Ed).
Prentice Hall. ISBN-13: 978-0131429390

Stansfield, C. (2004). *Building Geographic Literacy*. (5th Ed). Prentice Hall. ISBN-13: 978-0131502710

GEOG 103

World Regional Geography

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn By Term and Extended Learning

Catalog Description:

The interconnectivity and interrelationship of the world regions by stressing physical, economic development, agricultural, cultural and population characteristics. Strengthening of one's mental

Course Description:

Facilitates an understanding of spatial relationships between and among the geographic regions of the world. Includes demographic and cultural (political, economic, and historic) forces related to the physical environments of selected regions. Focuses on analysis of interrelationships between developed and developing regions, and the interactions between human societies and natural environments.

Course Requirements:

Internet access is required to complete this course. If you do not have web access, please contact the Continuing Education Office (1-800-388-6154) for information regarding course completion options. This course requires the completion of thirteen (13) chapter assignments including map assignments, thirteen (13) chapter quizzes, a final paper, and two (2) exams (midterm and final). The exams do not require a proctor.

Required Course Books and Materials:

de Blij, H.J. and Muller, P. (2011). Regions. (15th Ed.). John Wiley and Sons.

GEOL 101

Earth Science

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn By Term and Extended Learning

Catalog Description:

Four earth spheres: the hydrosphere (oceanography, hydrologic cycle); the atmosphere (meteorology and climatology); the lithosphere (geology; internal and external processes); and space are emphasized.

Course Description:

Earth Science is the name for all the sciences that collectively seek to understand the Earth and its neighbors in space. It includes geology, oceanography, meteorology, and astronomy. A unified theory relies on seeing the interrelationships among these four disciplines. Therefore, this course treats these interrelationships as the foundations of earth studies, beginning with geology. The remaining three disciplines follow in a sequence that makes necessary and frequent references to the processes shaping the Earth and influence of each on the biosphere.

Course Requirements:

This course requires students to answer text review questions at the end of each chapter. Students will also develop an Article Portfolio by selecting eight (8) newspaper, news magazine, or Internet articles focusing on a current event (earth science in nature) relating to the material presented in the course outline and writing a 2-3 page summary for each article. There are two (2) proctored tests in this course (Midterm & Final).

Required Course Books and Materials:

Tarbuck, E. and Lutgens, F. (2012). Earth Science. (13th Ed). Pearson/Prentice Hall. ISBN 13: 978-0-321-68850-7

Additional Course Information

This is a/n Lower division course.

This course is a Colorado Guaranteed Transfer Course.

Identification of a proctor IS required for this course

Internet access is not required for this course.

GEOL 101L

Earth Science Lab

1 Credit Hours

\$185 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn By Term and Extended Learning

Catalog Description:

Optional lab to accompany GEOL 101. Co-requisite: GEOL 101.

Course Description:

The exercises in this laboratory course will give you the opportunity to apply many of the concepts studied in earth science. The emphasis of the first half of the course is to understand basic geological processes and identification of rocks and minerals. The emphasis of the second half of the course is on understanding basic oceanographic, meteorological and astronomical processes related to Earth Science.

Course Requirements:

To successfully complete this course, students must complete fourteen (14) home laboratory exercises and a summary/report for each lesson. There are no exams for this lab course.

Required Course Books and Materials:

Tarbuck, E. , Lutgens, F. , and Pinzke, K. (2012). Applications and Investigations in Earth Science. (7th Ed). Pearson/Prentice Hall. ISBN-13: 978-0321689559.

A few supplies may be needed to complete lab exercises: blue, green, and red pencils, a ruler scaled in both inches and centimeters, a compass, and a three-foot length of string. An inexpensive magnifying glass may be helpful reading some of the exercise maps. For a few of the exercises you will need access to a 10-inch diameter (or larger) globe and a small atlas with an index.

Additional Course Information

This is a/n Lower division course.

This is a Science General Education Course.

This course is a Colorado Guaranteed Transfer Course.

Identification of a proctor is not required for this course

Internet access is not required for this course.

HIST 201

U.S. History I

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

United States history from founding of North American colonies to 1877 Reconstruction era.

Course Description:

The purpose of History 201 is to acquaint the student with the major events and significant people in the history of the United States from the pre-colonial period to the conclusion of Reconstruction. In this course, you will study important changes in United States History from the beginnings to the end of the Civil War in 1865. It will cover several themes: American Indian, European, and African Background; the European Colonial Period, particularly that of the British-American Colonies; the American Revolution and Revolutionary War which began in 1776; the Early Federal and Jeffersonian Period, taking us to 1815; the Period of Nationalism, Reform, and rising Sectionalism; the Coming of the Civil War in the 1850s; and the Civil War itself.

Course Requirements:

For each lesson students are required to do the following assignments in this suggested order: post a response to the Discussion Board and critique the response of another student; read through a Power Point presentation and answer, in writing, the questions that are embedded in the presentation; submit, via e-mail, the answers to the Power Point questions; and read the Textbook assignment. For the weeks designated, in addition to the above weekly assignments, students will submit two book reviews; and, submit a final essay exam. The final exam is proctored.

Required Course Books and Materials:

- 1) Du Val, K. (2007). *The Native Ground: Indians and Colonists in the Heart of the Continent*. Philadelphia: University of Pennsylvania Press. ISBN-13: 978-0812219395
- 2) Goodman, P. (1998). *Of One Blood: Abolitionists and the Origins of Racial Equality*. Berkeley: University of California Press. ISBN-13: 978-0520226791
- 3) Johnson, M. (2008). *Reading the American Past; Selected Historical Documents, Volume I*. (4th Ed.). Boston: Bedford/St. Martin's. ISBN-13: 978-0312459673
- 4) Roark, J., et al. (2008). *The American Promise; A History of the United States. Volume I*. (4th Ed.). Boston: Bedford/St, Martin's. ISBN-13: 978-0312452926

HIST 311

History of United States Foreign Policy

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

United States foreign policy from the founding of the republic to the present.

Course Description:

This course is an introduction to major topics in US foreign relations since 1776. It will cover the main themes in each time period but will emphasize the time period of the 20th century when the US rose to world power status. We will pay particular attention to the events of the past 50 years and attempt to project where the US may be going in the future given what you have learned about the past.

Course Requirements:

Your grade will be determined by your performance on several assignments. These include:

1. Finishing three papers on assigned topics – see following lesson schedule.
2. Completing the weekly question related to the readings and highlighted in each weekly section of the study guide.
3. Finishing a midterm and final examination that will consist of a paper on an assigned topic.

Required Course Books and Materials:

Herring, G. (2008). From colony to superpower: United States foreign relations since 1776. New York, NY: Oxford Press. ISBN-13: 978-0195078220

Merrill, D. and Paterson, T. (2005) Major problems in American foreign relations: Documents and essays, Concise edition. Boston, MA: Wadsworth Publishing. ISBN-13: 978-0618376391

Internet access is not required for this course.

HIST 414

The American Civil War

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Social, cultural, and political developments that caused the sectional crisis, secession, and war. War coverage includes military strategy, politics, diplomacy, and emancipation.

Course Description:

History 414 (The American Civil War) will acquaint the student with the major events contributing to the outbreak of the American Civil War. It also will provide the student with a basic understanding of the progress of the war.

Course Requirements:

For each lesson students will do the following assignments in this suggested order: post a response to the Discussion Board and critique the response of another student; read through a Power Point presentation and submit, via e-mail, answers to the questions that are embedded in the presentation; submit, via e-mail, answers to the Power Point questions; and read part of the book assigned for that week. The course also requires three written book reviews. At the end of the course, students submit a final essay. The final is proctored.

Required Course Books and Materials:

Goodman, Paul. (2000). *Of One Blood: Abolitionists and the Origins of Racial Equality*. Berkeley: University of California Press. ISBN-13: 978-0520226791

MATH 109

Mathematical Explorations

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Emphasis on quantitative reasoning and problem solving. Topics chosen from logic, sets, algebra, linear programming, probability, statistics, number theory, geometry, voting theory, and graph theory. Prerequisite: Satisfactory placement exam score and MATH 099 or equivalent.

Course Description:

The emphasis of this course is to develop quantitative reasoning and problems solving skills. Topics will be chosen from logic, sets, algebra, linear programming, probability, statistics, number theory, geometry, and counting techniques.

Course Requirements:

There are 9 chapters covered in the course. Each assignment will cover a single chapter. All homework sets are from the Exercises at the end of each chapter. There are three exams in the course. Each exam covers three chapters in the text. Additionally there will be a comprehensive final which includes material from each chapter covered.

Required Course Books and Materials:

Tannenbaum, P. (2014). Excursions in Modern Mathematics. (8th Ed.). Prentice Hall.
ISBN-13: 978-0321825735

Calculator: A scientific calculator is required. (Texas Instrument TI-30Xa works well) You can use the calculator on each assignment and all of the exams.

Additional Course Information

This is a/n Lower division course.

This is a Math General Education Course.

This course is a Colorado Guaranteed Transfer Course.

Identification of a proctor IS required for this course

Internet access is not required for this course.

MATH 121

College Algebra

4 Credit Hours

\$740 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Solutions of algebraic equations, graphs of rational functions, exponential and logarithmic functions, systems of equations, matrices, and determinants. Prerequisite: satisfactory placement exam score or MATH 099 or equivalent.

Course Description:

Solutions of algebraic equations, graphs of rational functions, exponential and logarithmic functions, systems of equations, matrices, and determinants. Prerequisite: satisfactory placement exam score or MATH 099 or equivalent.

Course Requirements:

There are 6 chapters covered in the course. Each lesson will cover a single chapter. Each section in the lessons has two sets of problems listed: recommended and required. The recommended set provides the necessary practice to master the material. These problems will not be graded and should not be mailed to me. Each required set contains 5 problems per section. You will have four exams in the course. Each exam covers the material indicated in the course requirements. Additionally there will be a comprehensive final which includes material from each chapter covered.

Required Course Books and Materials:

Sullivan, M. (2011). College Algebra (9th Ed.). Prentice Hall. ISBN-13: 978-0321716811

Calculator: A graphing calculator is required. (Texas Instrument TI-84 plus works well.) You can use the calculator on each assignment and some portions of the exams.

Additional Course Information

This is a/n Lower division course.

This is a Math General Education Course.

This course is a Colorado Guaranteed Transfer Course.

Internet access is not required for this course.

MGMT 201

Principles of Management

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Managerial process of planning, organizing, leading, decision-making, and controlling. Modern management techniques will be emphasized.

Course Description:

MGMT 201, Principles of Management provides for an overview of the managerial process of planning, organizing, leading, decision-making, and controlling. Modern management techniques are emphasized in this class.

Course Requirements:

The student is required to read the text, and respond to a series of short response questions for each of the chapters. These questions are grouped into the six sections of the text. In addition, for each of the six sections, students will select one question and develop that question into a two to three double spaced essay for a total of six essays. This course requires a proctored final exam.

Required Course Books and Materials:

Schermerhorn, John R. (2010). Management. (11th Ed). John Wiley and Sons. ISBN-13: 978-0470530511

MGMT 311

Operations and Quality Management

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Managerial perspective of the operations and quality functions, use of analytical tools to solve operations and quality problems. Prerequisite: MGMT 201, BUSAD 265 or MATH 156, and junior standing.

Course Description:

The purpose of this course is to familiarize the student with terminology, concepts, issues, techniques, and methodologies associated with the discipline of production/operations management. Particular emphasis will be placed on operations strategy and on the design and execution of operations planning and control systems. Attention will be given to developing analytical skills relevant to the management of such systems.

Course Requirements:

4 Exams and 18 Application exercises (AE's) are required to successfully complete this course. All exams and AE's must be attempted with reasonable effort to earn an A in the course.

Required Course Books and Materials:

Operations Management, 11th edition., Jay Heizer and Barry Render, Prentice-Hall.
ISBN-13: 978-0133408010

MGMT 362

Purchasing and Materials Management

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Strategies and tactical methods, opportunities and problems associated with the flow of materials in an organization will be covered. Prerequisite: MGMT 311.

Course Description:

This course is an introduction to the business function of supply, purchasing and materials management (PMM). You will learn many of the PMM concepts, ideas, and techniques for acquiring and managing materials. At the conclusion of this course you will have a basic understanding of the PMM function, and how it relates to and supports the other functions of a business.

Course Requirements:

There is a 5 to 10 page paper on any subject directly related to the topics in this course or in the text. You are required to have at least 3 different sources of material for the paper. Please contact the instructor for topic approval before proceeding too far into the work. There are 3 exams sent to the students by the instructor. There are 15 case studies. Each case should be studied and analyzed. A one-two page typed paper should be submitted for each case which answers the question assigned for that case. This course requires the ability to receive a textbook with a CD enclosed or access the internet.

Required Course Books and Materials:

Burt, Dobler and Starling, (2003). World Class Supply Management. (7th Ed.) McGraw-Hill. ISBN-13: 978-0072831566. Make sure you receive the CD when ordering the text.

MGMT 410

Labor Management Relations

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Federal and state legislation and executive orders governing the employer-employee relationship; legal rights of organizations and collective bargaining. Pre-requisite: MGMT 318.

Course Description:

This course provides a comprehensive overview of Labor Relations. The emphasis is on the unionized environment. The areas covered include the history of labor and labor relations in the United States, the evolution of the law and regulation, the current legal and regulatory framework, and a global overview and comparison of unions and unionization.

Course Requirements:

The text is divided into four parts. The student is required to read the text and responded to selected “reflection questions” and the questions in the “discussion cases” at the end of each of the chapters in these sections. Each part has a different point value which is stated at the beginning of the lesson. The student is also required to read the summary included with each of the lessons outlining the important areas within the chapter. The student will also provide a one or two sentence definition of the key terms at the end of each of the chapters. There is also a comprehensive final examination. The examination is based on the information the student has learned by completing the questions and definitions. Through the coursework that the student completed, the student has built a study guide for the final.

Required Course Books and Materials:

Budd, John W. (2012). Labor Relations: Striking a Balance. (4th Edition). McGraw-Hill.
ISBN-13: 978-0-07-802943-1

MGMT 414

Entrepreneurship

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

In-depth analysis of the various environments, management, accounting, finance, and legal considerations required for business plan development by an entrepreneur or small business owner.

Prerequisite: MKTG 340

Course Description:

Entrepreneurs dream BIG dreams and see opportunities where others only see failures. People such as Bill Gates, Ben & Jerry, Oprah Winfrey and Donald Trump created businesses that have become wildly successful and serve as role models for what can be accomplished with a big idea and hard work. Today's entrepreneurs are working hard to improve our quality of life and our environment by offering new products and services to solve some of today's issues. They are using their best talents for personal and professional satisfaction.

This is a great time to think about entrepreneurship as an alternative to working for a large corporation. New ventures can create personal satisfaction for their creators and persistence in finding the way to make their ideas financially successful can be professionally very rewarding.

Course Requirements:

Two exams, three written short project assignments and one comprehensive business plan are required to successfully complete the course.

Required Course Books and Materials:

Longenecker, J., Petty, J.W., Palich, L., and Hoy, F. (2012) Small Business Management: Launching and Growing Entrepreneurial Ventures. (16th Ed.). South-Western College Publishing.
ISBN-13: 978-1-111-53287-1

MGMT 460

Operations Strategy

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Examination of recent developments in the strategy of operations in the manufacturing and service sectors involving technological policy, new process development, and new product introduction.

Prerequisite: MGMT 311.

Course Description:

This course is an introduction to operations strategy.

Course Requirements:

There are 5 case analyses. Each case analysis is an individual paper of no more than six double spaced pages which examines the case from a managerial perspective. Mathematical details, tables, and so forth should be placed in the end as exhibits. There are 4 Article Analyses. For each article in the text that is assigned, you are to prepare an outline of the key concepts of the article. This can be in outline format, but should be typed and look professional. A key goal of this course is for you to develop the ability to understand the operating strategy of an actual organization. To help us meet this goal, you are to do a company analysis. You may select any company or one site (plant, store, warehouse, etc.). The final exam for this course is included in the syllabi. You may use the textbook, article reviews, and student notes in the completion of the test.

Required Course Books and Materials:

Garvin, D. (1992). Operations Strategy, Text and Cases. Prentice-Hall. ISBN-13: 978-0136389170

MKTG 341

Sales Force Management

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Managing a sales force including recruiting, selection, training, compensation, supervision, stimulation and sales planning. Computer simulation used to do forecasting, budgeting, territory allocation, sales analysis and control. Prerequisite: MKTG 340.

Course Description:

This course is designed to teach students the concepts involved in managing a sales force. Most, if not all, corporations have a sales force and the sales representatives in the sales force are used to sell (part of marketing) the company's products/services to its customers. This course is about how sales managers manage their sales representatives. The concepts covered in this course include: selling techniques, sales forecasting, designing sales territories, selecting, and training, motivating, compensating and evaluating the sales force.

Course Requirements:

There are three tests in this course. All tests are proctored. Two case studies are required and one project.

Required Course Books and Materials:

Inram, T & LaForge, R (2012). Sales management: Analysis and decision making. (8th Ed.) ME Sharpe.
ISBN-13: 978-0765626400

POLSC 201

International Relations

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Introduction to international relations and world politics. Focuses on global political issues, including conflict, war, political economy, environmental politics and globalization.

Course Description:

This course is meant to acquaint students with the core concepts, processes, and issues of international relations (IR). The content of this course is divided into three sections and will provide a broad overview of foundational theories and pertinent topics within IR. The first section emphasizes analytical factors of IR. There we will be concerned with understanding the purpose of theory, its construction, and identifying relationships between actors and events in the international system. The second section focuses on international security. We will introduce classical theories of war and peace, bargaining and foreign policy decision-making, and asymmetric warfare. The third section forays into theories of public goods and cooperation. There we will investigate the role of supranational institutions, democracy, international law, human rights, and international political economy.

Course Requirements:

There are two exams for this course, one midterm and one final exam. The examinations are closed book and require a proctor. This course has one research paper assignment that is due in two sections: a 3-4 page policy proposal and a 5-6 page prescription paper that executes the argument introduced in the original proposal.

Required Course Books and Materials:

1. Frieden, J., Lake, D., and Schultz, K. (2012) World Politics: Interests, Interactions, Institutions, (2nd Ed.) W.W. Norton and Company. ISBN-13: 978-0393912388.
2. Additional readings are required and are provided electronically. These readings are marked within the syllabus with ``WEB''. These readings are also available through the CSUP library (JSTOR, EBSCOHost, etc.), or through Google Scholar. If you requested a print based course, the readings should be included in your course packet.

POLSC 202

Comparative Politics

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Introduction to comparative political analysis through study of selected political systems. Emphasis on basic political functions and processes in developed countries.

Course Description:

Why study the political systems of other countries? This course examines governments and political cultures around the world, not as a form of intellectual tourism, but to broaden and deepen our understanding of important and general political processes. We do this by making systematic comparisons between political systems that are similar in many respects, but nonetheless differ in important ways. This allows us to analyze the effect of these differences in a careful and rigorous way, enriching our understanding of how politics works. This course is also designed to provide training in how to conduct social science research. The abilities to collect data, formulate theories of causality, test for results, and then to report them are important skills not only for political scientists, but useful in all manner of professional and personal activities.

Course Requirements:

There are two examinations for this course: A midterm and a final. Both exams are essay-based, with the final exam also containing a short answer section in which you identify key terms and explain their importance. Each exam will be taken in the presence of a proctor, and without books or notes. This course has one written assignment and one research project due in two sections: A 5 page research design and a 10 page research paper.

Required Course Books and Materials:

Samuels, (2013) Comparative Politics. Pearson. 978-0321449740 (e-book available at significant cost savings)

Friedman, T. (1995) From Beirut to Jerusalem. Anchor Books. ISBN-13: 978-1250015495

The policies and practices of local first responders, interagency relationships, political violence and unconventional weapons.

Course Description:

This course presents and analyzes common emergency planning and response methodologies for public agencies and private enterprise, with emphasis on common standards, “best practices,” case studies and lessons learned from previous emergency response operations. This course also provides practical background on the complexities of protecting critical infrastructure and core functions, impacts of interdependencies on response capability, issues in coordinating emergency response, and practices in maintaining communication and public information for emergency operations.

Course Requirements:

This course has four primary assignments, distributed throughout the three course modules: Completion of 3 FEMA Emergency Management Institute (EMI) Online Courses (20% toward final grade); A “Critical Incident Analysis” essay (20% toward final grade); A Midterm Essay (30% of final grade); An In-Depth Case Study (30% of final grade); In addition, there are 3 instructor consultations that the student and instructor must participate in. These consultations are required.

PSYCH 105

Understanding Human Diversity

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

(Course also available as SOC 105) Americans live in a complex and diverse society. This course examines the nature, impact and strategies for dealing with diversity in personal and social contexts.

Course Description:

Through taking this course you will be able to make a difference in the lives of people with whom you come into contact regardless of your differences. The lessons learned in this course should prove useful in all aspects of your life, home, work, social life and even chance interactions throughout your day. At the end of this course you should have a better understanding of human diversity and an attitude of respect for diverse people. Remember~ different is not better or worse, just different! Diversity should be celebrated. Embrace differences around you, they are the spice of life.

Course Requirements:

The following are the requirements to successfully complete this course: 3 exams (worth 100 points each); 2 writing assignments (worth 50 points each). Each writing assignment is 2 to 3 pages. The exams are proctored and will include multiple choice, true/false, and essay questions.

Required Course Books and Materials:

Kent Koppelman and R. Lee Goodhart, Understanding Human Differences: Multicultural Education for a Diverse America, 3rd edition, Allyn & Bacon, 2011.

ISBN:13 978-0-13-610301-1

PSYCH 151

Human Development

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Survey of human development through life span. A multidisciplinary approach to the study of both change and stability in physical, cognitive, social, and personality development. Review of relevant developmental theory and research.

Course Description:

Introduction to Human Development provides an overview of life-span development and is designed to stimulate curiosity about how and why human beings change from their beginnings as fertilized eggs to their last years of life. The course shares with students an overview of the best theory, research, and practical advice that the field of Developmental Psychology has to offer. From this course students learn that development is an incredibly complex process that grows out of the interactions between a changing person and a changing world, and one that continues throughout the entire life span.

Course Requirements:

Students are expected to read all assigned chapters and complete all Study Guide assignments. Grades will be based on exams and two written assignments. Students are expected to read all assigned chapters and complete all Study Guide assignments.

Required Course Books and Materials:

Sigelman, C. and Rider, E. (2012). Life-Span Human Development. (7th Ed.). Wadsworth.

Text and Study Guide: ISBN 13: 978-1111652951

PSYCH 205

Sport Psychology

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

An introduction to psychological theories and constructs affecting performance, coaching & development in sports and athletics.

Course Description:

The purpose of this course is to provide a synthesis of the major topics in sport psychology with an applied focus and an emphasis on achieving optimal performance. After the introductory chapters, there are three main sections to the text: Performance Enhancement covers topics such as anxiety, routines, mental imagery, self-talk, concentration, relaxation, goals, and self-confidence. The section on Performance Inhibition includes chapters on choking under pressure, self-handicapping, procrastination, perfectionism, burnout, and injury. While much of the information presented is universally applicable, individual differences based on gender, ethnicity, age, and motivation are emphasized in the concluding section on Individuals and Teams. We will also be examining case studies of well-known athletes from a variety of sports to illustrate topics that are being explored.

Course Requirements:

The following are the requirements to successfully complete this course: 4 written lesson assignments. Each writing assignment contains 3-4 questions. The length should be a minimum of three pages and a maximum of five.

Required Course Books and Materials:

Beckelhimer, L. (2009). Sports talk. Pearson. ISBN-13: 978-0205583379

Mazzoni, W. (2006). You vs. you: Sports psychology for life. Mazzmarketing.

PSYCH 251

Childhood and Adolescence

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Physical, social, cognitive, and emotional growth of the individual from childhood through adolescence. Topics include intelligence, social development, self-development, moral development, family relations. Prerequisite: PSYCH 100.

Course Description:

The purpose of this course to produce a current and comprehensive overview of child and adolescent development reflecting various theories, research, and practical advice. The content of the course is divided into five parts: (1) Introduction to child and adolescent development, (2) Biological foundations of development, (3) Cognitive development, (4) Social and personality development, and (5) The context of development.

Course Requirements:

You are required to submit five typewritten, 3-5 page double-spaced assignments. Each assessment must contain a minimum of three references.

Required Course Books and Materials:

Shaffer, D.R. & Kipp, K. (2010). Developmental Psychology: Childhood and Adolescence. (8th Ed.). Wadsworth. ISBN-13: 978-0495601715

Additional Course Information

PSYCH 311

Theories of Personality

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Major theories of personality and the methods of personality investigation. Prerequisite: PSYCH 100.

Course Description:

The purpose of the course is to provide a general understanding of the major personality theories that are fundamental to psychology. You will be covering nine personality theories in this course. These theories can be useful tools in helping you understand not only yourself better, but also the lives of those around you as well as humanity more generally.

A major objective of the course is to enhance critical thinking skills as well as written communication skills. In an attempt to meet these objectives (as well as make learning about theories as engaging as possible), you will be asked to bridge the gap from theory to application in several short writing assignments.

Course Requirements:

There are two exams in this course. The exams are closed book and require a proctor. You will also be writing a variety of short papers in which you will: Provide your opinion on the building blocks of personality theory, apply theories through case studies of hypothetical lives, apply theories to your life and to humanity more generally, compare and contrast two of the three major perspectives in psychology.

Required Course Books and Materials:

Feist, J. & Feist, G. J. (2005). Theories of Personality (6th Ed.). McGraw-Hill.

ISBN-13: 978-0073191812

Additional Course Information

This is not a General Education Course.

This course is not a Colorado Guaranteed Transfer Course.

Identification of a proctor IS required for this course

Internet access is not required for this course.

PSYCH 337

Memory and Cognition

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Theory and research on current topics in cognition, including attention, concept formation, imagery, memory, decision making, language acquisition, problem solving and text comprehension.

Prerequisite: PSYCH 100.

Course Description:

The purpose of this course is to explore the theories of memory and cognition. In the process of meeting this goal, students should develop the vocabulary associated with this area of psychology, as well as an appreciation of their own cognitive functioning. The content of the course is divided into three major sections: The first discusses information processing stages (pattern recognition, attention, memory, etc.), the second discusses the representation and organization of knowledge (coding, imagery, categorization, etc.), and the third section discusses complex cognitive skills (language, comprehension, problem solving, decision-making, etc).

Course Requirements:

There are three proctored exams in this course. You are required to submit six typewritten, double-spaced assignments. Each writing assignment contains 3 – 5 questions. As a general guideline answers should be a minimum of 1 or 2 paragraphs and a maximum of two pages per answer. When using research to support your answers you must include citation and references in APA style.

Required Course Books and Materials:

Reed, S.K. (2010). Cognition: Theories and Applications (8th Ed.). Wadsworth.
ISBN-13: 978-0495602309

Internet access is not required for this course.

PSYCH 342

Educational Psychology

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

The contribution of psychology theory, research and methods to our understanding of teaching and learning. Prerequisite: PSYCH 100 or 151.

Course Description:

Although educational psychology tends to emphasize processes of development, learning, and motivation, almost every aspect of psychology is relevant to educational settings. You will thus find that much of the course content here is familiar from your general psychology course. The difference is that educational psychology explores how our fundamental knowledge of human behavior may be applied practically - and applied within educational settings and experiences.

Course Requirements:

Satisfactory completion of the course will depend on your completion of five written lesson assignments (100 points each). You must complete all five required assignments to pass this course.

Required Course Books and Materials:

Santrock, John W. (2009). Educational Psychology (4th ed.) New York: McGraw-Hill. ISBN 978-0073378589

Additional Course Information

This is a/n division course.

This is not a General Education Course.

This course a Colorado Guaranteed Transfer Course.

Identification of a proctor is not required for this course

Internet access is not required for this course.

PSYCH 351

Psychology of the Exceptional Individual

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Survey of characteristics of those individuals considered significantly above or below the norm of the population. Emphasis on behavioral identification and modification of the home, school, and social environment. Prerequisite: PSYCH 100.

Course Description:

This course is about people – people with diverse needs, characteristics, and lifestyles – people who for one reason or another are considered “exceptional.” You will find that the study of human exceptionality is the study of being human. In addition to providing you with current and informative content, the hope is that this experience with exceptionality will be interesting, enjoyable, productive, and will enhance your desire to learn more about human exceptionality.

Course Requirements:

There will be five exams, each over several chapters. Students are expected to read each chapter, and complete the “Case Study” questions for one of the chapters in each Lesson (a total of 6 reports). The format for each case study report will be a brief (1-2 pages), clearly detailed, typed, proofread, paper summarizing the case and answering the questions which follow each case presentation.

Required Course Books and Materials:

Human Exceptionality, School, Community, and Family; Hardman, Drew, and Egan, Twelfth Edition, 2016, Cengage Learning Publishers. ISBN# 978-1-305-50097-6

PSYCH 362

Abnormal Psychology

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Etiology, diagnosis, and therapy of maladaptive or abnormal behaviors and mental functioning.
Prerequisite: PSYCH 100.

Course Description:

To gain a basic understanding of abnormal behavior, classification system and different diagnostic categories.

Course Requirements:

There are four proctored exams and two papers in this class. Each exam will be comprised of three chapters from the textbook. Scholarly journals or other texts are required as resources for your paper. You will need to have access to a library.

Required Course Books and Materials:

Comer, Ronald J. (2004). Fundamentals of Abnormal Psychology. (9th Ed.). Worth. ISBN-13: 978-1464171703

PSYCH 401

History and Systems of Psychology

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered:

Catalog Description:

The historical development of modern psychology from its roots in classical philosophy and the social, cultural, and political context within which psychological theory emerged. Prerequisite: PSYCH 100, 209, 209L and senior standing.

Course Description:

The purpose of this capstone course is to produce a historical and holistic overview of the discipline of psychology. The content of the course is divided into four parts each culminating in an extensive research paper; (a) Introduction to Psychology and the Ancients, Philosophical and Scientific Antecedents, and Early Studies (b) Wundt, Titchener, Münsterberg, and Gestalt Psychology, (c) History of Clinical Psychology, Functionalism, Darwin, Galton, Cattell, James, Hall, and (d) Pavlov, Watson, Intelligence testing, and Neobehaviorist Psychologists.

Course Requirements:

This course requires the completion of four (4) APA Research Assignments.

Required Course Books and Materials:

Hothersall, D. (2004). History of psychology (4th ed.). NY: McGraw-Hill. ISBN-13: 978-0-07-284965-3
ISBN-10: 0-07-284965-7

SOC 101

Introduction to Sociology

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn By Term and Extended Learning

Catalog Description:

The scientific study of patterns and processes of human social relations.

Course Description:

Sociology is the scientific study of human action and interaction. This course will introduce you to the sociological perspective as well as the research methods employed by sociologists to understand how society works. Sociologists propose that our actions are shaped by the social context in which they occur. Every person is born into a society that has its own culture, or "standard" ways of thinking and behaving. Illuminating these "ways of being" will provoke thought about what we take for granted as "natural" about the social order of everyday life, so that we may think more critically about the ways our own social interactions both reinforce and confront the cultural practices and social institutions which influence those very interactions. Lessons and assignments are divided into the following six sections: (1) Introduction to the discipline of sociology, (2) tools for sociological research, (3) Individuals in society, (4) Social institutions, (5) Social stratification & Inequality, and (6) Social change.

Course Requirements:

The following are the requirements to successfully complete this course: 5 written lesson assignments (20 points each, or 100 total) and 2 exams (50 points each, or 100 total).

Required Course Books and Materials:

Anderson, Margaret L and Howard F Taylor. (2013) Sociology: The Essentials, 7th ed. Belmont: Cengage. ISBN-13: 9781111831561 (paperback)

SOC 155

Minority & Ethnic Relations

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Sociological theories, studies, and findings concerning group maintenance and interaction in contemporary society.

Course Description:

This interdisciplinary survey examines the diverse cultural, artistic, economic, historical, political, and social aspects of American minority communities. Topics may include race/ethnicity, gender, socioeconomic class, sexual orientation, national origin, age, disability, and religion.

Course Requirements:

To successfully complete this course, students must complete 2 book reports, 2 projects, short-subject papers, lectures and a final examination.

Required Course Books and Materials:

Ron Takaki. 2008 [1993]. A Different Mirror: A History of Multicultural America. Revised Edition. (Little, Brown & Co.). ISBN: 978-0316022361.

Dee Brown. 1987 [1970]. Bury My Heart at Wounded Knee (Holt). ISBN: 978-0805066692

There are a number of films that are required viewing throughout the course:

Amazing Grace: The Story of William

Wilberforce

Amistad

12 Years a Slave

Lincoln

The Color of Fear

Tim Wise on White Privilege

Remember the Titans

Go for Broke, The Experience of the Japanese during World War II

A Class Apart [The formation of the Latino/Hispanic People]

Who are the Latinos?

SOC 203

The Criminal Justice System

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

This course examines origin, nature, and utilization of criminal law; policing, court adjudication and sentencing; jails and prisons; community based corrections; criminal justice policy.

Course Description:

The object of this course is to examine the nature and functioning of the American Criminal Justice System. We will begin with a broad overview of the major components of the system and then break down these major components into three separate but interrelated areas of investigation. The three major components of the system are: law enforcement, the judicial system, and the correctional system. I refer to these components as the three “C’s” – “Cops, Courts, and Corrections.” The juvenile justice system will also be examined in this course.

Course Requirements:

You will be required to take two exams in order to complete this course; one midterm and one final exam. The final exam is not cumulative and will focus on the material covered in the reading chapters designated for the second half of the class. The examinations are closed book and require a proctor. In addition to the exams, you will be required to submit five written essay assignments (preferably typed).

Required Course Books and Materials:

Boyes-Watson, Carolyn. 2013. 2nd Edition. Crime & Justice: Learning Through Cases. Lanham, Maryland: Rowman & Littlefield. ISBN: 978-1-4422-2089-8. (e-book available)

SOC 231

Marriage and Family Relationships

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Marriage and family from an institutional and relationship perspective; cross-cultural diversity, mate selection, marital dynamics, parenting, divorce, remarriage, emerging patterns.

Course Description:

This course offers an analysis of the diverse American family. It begins by examining the changes that took place in marriage and family during the 20th century and how different theoretical perspectives interpret those changes. It also covers the ways that family background influences our attitudes toward intimate relationships, gender roles, marriage and divorce, parenthood, and communication within the family. The student will come to understand various relationships before marriage, including the choice to not marry. Then, the course will look into the qualities essential to a happy and successful marriage as well as the changes in marriage over one's life cycle. Not to be excluded is the various family roles and the effect of economic status; power, decision making and communication within a marriage. Finally, the course presents material about parenthood within a marriage and how that shifts the relationship from couples to the children.

Course Requirements:

This course has one proctored exam and two written assignments.

Required Course Books and Materials:

DeGenova, Mary Kay and Rice, F. Phillip. (2011). Intimate Relationships, Marriages, and Families. (8th Ed.). McGraw Hill. ISBN-13: 978-0073528205

SOC 301

Sociological Methods

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn By Term and Extended Learning

Catalog Description:

The methods of research and investigation in sociology and the social sciences. Prerequisite: SOC 101.

Course Description:

The purpose of this course is to teach the methods of scientific investigation in the social sciences. The emphasis is on the connection between theory and research. Five areas of learning social science research will be addressed. One area is to learn the terminology associated with social science research. A second area of learning is to become familiar with five broad research methodologies and their associated types of research. The third area of learning is how to use critical thinking skills in the evaluation of research. And the fourth area of learning is in how to do data analysis from a conceptual framework (not statistical calculations). The final and fifth area of learning is how to write a research paper and what the sections of a research paper are. It also examines the role of values and ethical issues in research.

Course Requirements:

There are four assignments in this course.

Two of the assignments are in the form of objective exams that document students learning of the material in Text One. Each exam is worth 100 points.

The third assignment is to write a paper that involves answering nine questions provided in the text's appendix for evaluating a research article.

The fourth assignment involves completing Text 2's three part "Exercise for Article" assignments using the content of one of the Text 2's many research articles. Students are to complete each question of each of the three sets/types of questions (Factual Questions, Questions for Discussion and Quality Ratings). This fourth assignment is worth 50 points for a total of 300 points in all.

There are no requirements that students do any statistical calculations in this course.

Students who do not have access to the Internet are assigned to complete the two exams; two writing assignments and a research paper.

Required Course Books and Materials:

Babbie, E. (2017). *The basics of social research*. 7th Ed. Boston, MA: Cengage Learning.

Lomand, T. C. (2012) *Social science research*. 7th Ed. Glendale, CA: Pycszak Publishing.

SOC 305

Crime and Women

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Exploration of social, cultural and political variables that create both women victims and women criminals.

Course Description:

This course is designed to provide students with a comprehensive understanding of women's experiences in the criminal justice system. The course material covers the historical background of women as victims, criminals and working professionals in the criminal justice system. Students will utilize governmental crime statistics and academic research materials to analyze current rates of crimes committed against women and by women and the current percentage of women working in the fields of criminal justice. A conflict perspective using different feminists theoretical perspectives will be employed to analyze these materials.

Course Requirements:

Students are required to take two essay examinations, a midterm and a final. The final is inclusive of all course material.

Students will be required to write three short papers, approximately three to four pages in length. A five to seven page term paper is also required. It will account for 25% of the total course.

SOC 308

Popular Culture

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Advertising, television, music, novels, and the news are among the topics to be investigated for their social significance.

Course Description:

This course is designed to provide students with a comprehensive understanding of the historical and chronological developments that have shaped the world of “popular culture.” The course material is presented in a narrative form. An array of different writer’s works are presented to examine the different mediums that make-up what is known as popular culture, from Shakespearean plays, to the “dime novels” to radio, to film, to the age of television and the music of today, such as Hip-Hop.

Course Requirements:

Students are required to take two essay examinations, a midterm and a final. Students will be required to write three short papers. The grades from each of the three writing assignments will be averaged together and this grade will account for one-third of the total course grade. Papers should be five to seven pages in length and double-spaced.

Required Course Books and Materials:

Cullen, Jim. (2001). Popular Culture in American History. Blackwell Publishing. ISBN-13: 978-0631219583

SOC 353

Penology

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

The history and role of corrections; correctional practice, relationship to law, prison society, working in prisons, special needs of prisoners, capital punishment, administration, privatization. Prerequisite: SOC 101 and 203.

Course Description:

Penology will provide a historical and sociological overview of the American corrections system. One of the primary attributes that you will notice early on about the American corrections system is “how big it is”. The United States has the highest incarceration rate in the world. Furthermore, the cost of corrections in the United States has continued to grow over the last several decades. This course examines the past, present, and a glimpse of the near future of corrections in America. The course will also outline the tactics that America uses to supervise offenders both in secure facilities and in the community. We begin the semester with a description of the overall corrections system and how it fits into the larger criminal justice system. We will also discuss the range of sanctions in use today and then we turn to the experiences of men, women, and special needs groups along with the challenges that these groups pose behind bars and in community correctional settings. Adequate attention will be given to controversial topics such as the "war on drugs", the death penalty, prisoner rights, etc. This course concludes with a recap of past and current successes and failures alongside glimpse into the future directions of US corrections.

Course Requirements:

You will be required to take two exams in order to complete this course: one Midterm and one Final Exam. Each exam is worth 50 points and consists of 50 multiple choice questions. The final examination is not cumulative and will focus on the material covered in the second half of the course. All exam material will be derived from course reading materials. There are also four written lesson assignments (must be typed).

Required Course Books and Materials:

Clear, Todd R, Michael D. Reisig, and George F. Cole. 2013. American Corrections, 10th ed. CA: Cengage Learning. Alternative Format: Loose-leaf Version. ISBN-13: 9781111841638

SOC 358

Film and Society

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

An in-depth look at the images of social life and social life and social relationships contained in popular movies.

Course Description:

This course is designed to teach key sociological topics through film. In this course, we will examine how a range of social issues are depicted in popular film. We will focus primarily on films that focus on social difference and/or social inequality. For example, we will explore racial representation through a popular film. We will couple an academic study with each topic that we explore through film. This will help us to situate our analyses of films in key sociological concepts.

Course Requirements:

Ten sociological movie reviews, each worth a total of 7 points for a total of 70

Final exam is worth 30 points:

Total: 100 points possible.

Required Course Books and Materials:

Feltey, K. & Sutherland, J. (2013) Cinematic Sociology: Social Life in Film (2nd Ed). Thousand Oaks, CA: Sage Publications, Inc. ISBN-13: 978-1412992848

Peter Braham (2013). Key Concepts in Sociology.

Students will need access to a the assigned movie for this course through a library or movie account such as, Netflix, Blockbuster, etc. The required movies are:

- Brazil (1985)
- The Grapes of Wrath (1940)
- Machete (2010)
- Fruitvale Station (2013)
- North Country (2005)
- Chasing Amy (1997)
- Dead Man Walking (1995)
- Maleficent (2014)
- Pretty Dirty Things (2003)
- Selma (2014)

SOC 404

Poverty

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

Poverty in the United States, its measurement and extent, perpetuating conditions, lifestyle, and anti-poverty programs.

Course Description:

Poverty is a social problem that has been persistent to various degrees in almost every society. Although we are the most affluent nation in the world, poverty is also still prevalent in the United States regardless of multiple and multifaceted attempts to eradicate this scourge. Franklin D. Roosevelt's New Deal and Lyndon B. Johnson's War on Poverty, for instance, demonstrate genuine efforts to provide effective relief and more social equality. Nonetheless, it can be reasonably argued that antipoverty initiatives have largely failed to provide effective long-term solutions and opportunities for upward social mobility that could permanently elevate the poor out of their desolation.

Course Requirements:

In order to complete this course successfully you will have to complete two essay exams. Each exam is worth 100 points (one third of your course grade). Five 2-3 page essays are also required. Each paper is worth 20 points each totaling 100 points (one third of your final grade).

Required Course Books and Materials:

Iceland, John. (2012). Poverty in America. University of California Press. Berkeley and Los Angeles, California. ISBN: 978-0520273009

SOC 407

Family Violence

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Learn by Term and Extended Learning

Catalog Description:

The extent, seriousness, and impact of the major forms of domestic violence.

Course Description:

The extent, seriousness, and impact of the major forms of domestic violence.

Why does family maltreatment occur? What do its victims experience? How do they recover? What can we do to help them? How can we understand the perpetrators? How might we reduce or prevent family abuse?

The class will examine the widespread social problem of family maltreatment. By examining the complex relationships that exist on multiple levels, the student will be better prepared to answer the above questions.

Course Requirements:

Two proctored exams are required for this course. The exams are “closed proctored tests”- no books, study guides, or notes. To increase the awareness of supplemental material in family violence areas, the student will be required to complete 8 article review essays. One essay will be completed after each chapter. The specific topic of each essay will be chosen by the student, and will center on an appropriate family maltreatment topic discussed in the related chapter. Each essay will be 2 pages in length.

Required Course Books and Materials:

Kemp, A. (1997). Abuse in the Family: An Introduction. Brooks Cole. ISBN-13: 978-0534341985

SOC 409

Victimology

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Study of the victims' role in criminal transactions. Examination of individuals and groups as victims of officially defined crime, as well as other social injuries, not officially defined as crime.

Course Description:

What about the victim?" For most of the history of our nation, victims of crime were largely invisible in the criminal justice process. Victimologists are trying to change that.

A student in this class will learn how victimology identifies the ways that illegal activities harm targeted individuals; how victims' cases are handled by the legal system; how victims "contributed" to their crime; how victims are repaid for their losses; and how alternative programs (i.e. restorative justice) have progressed in our time.

Course Requirements:

Two proctored exams are required for this course. The exams are "closed proctored tests" - no books, study guides, or notes. To increase the awareness of supplemental material in family violence areas, the student will be required to complete 13 article review essays. One essay will be completed after each chapter. The specific topic of each essay will be chosen by the student, and will center on an appropriate topic discussed in the related chapter. Each essay will be 2 pages in length.

Required Course Books and Materials:

SOC 410

Structural and Elite Crime

3 Credit Hours

\$555 Tuition*

Terms Offered: Fall, Spring, and Summer

Format Offered: Extended Learning

Catalog Description:

Examination of crimes and social injuries perpetrated by organizational structures that do physical or economic harm to the environment, their employees, and their customers.

Course Description:

Historically, crime and deviance at the structural and elite level have occurred in all types of organizations. This course will identify common types of white-collar crime and provide insight into how crime and deviance originate in organizational settings such as the health care system, the criminal justice system, politics, religion, education, and corporations. Additionally, students will be introduced to explanations for structural and elite crime and ideas about how it can be policed and curtailed.

Course Requirements:

The following are the requirements to successfully complete this course: 5 written lesson assignments (20 points each, or 100 total) and 2 exams (50 points each, or 100 total).

Required Course Books and Materials:

Payne, Brian K. 2013. White-Collar Crime: The Essentials. Los Angeles, CA: Pearson Sage.

Society and Technology

3 Credit Hours

\$555 Tuition*

Terms Offered: Ask for term offer

Format Offered: Extended Learning

Catalog Description:

Role of technology as a prime factor in changing social and political institutions. Addresses technology as the systematic application of organized knowledge and material tools to the extension of human faculties.

Course Description:

This course is required for Social Science majors. It is designed to increase the student's awareness of technological advances; to develop the student's appreciation of technology's benefits and costs; and to provide the student with critical thinking about the inter-relationship between politics, social dynamics, our economy and the advancement of technology. There are three written assignments. The written assignments involve webbing or mapping out a specific technological invention; a biography of an inventor, the itemization of which technological devices are used in a typical home; and designing a timeline of technological advances of a specific area.

Course Requirements:

The student will be given three papers to complete varying in length from 1 - 10 pages in length and a proctored open book exam (one-hour time limit). The papers involve listing more than 150 technological devices in the typical middle class or upper/middle class home; charting the development of a specific technology that the student chooses, a dissertation regarding the influence that historical developments of technology plays on current technological diffusion, and evidence of critical thinking with regards to the diffusion of various technologies. Each paper counts 50 points and the exam counts 100 points for a total of 250 points.
