COF Stipend Authorization

Stipend Authorization

Students who receive a COF Stipend from the state of Colorado must provide authorization for their school to request the funds on their behalf for the term. Below you will find your current course registration for the term and an indicator of whether or not the course may be partially paid by the use of a stipend. Below the schedule you must choose one of the options for the term. If payment has already been requested on your behalf for the term, you may increase your authorization, but you may not decline or decrease your authorization level.
