Executive Summary

Pueblo Motorsports Park has a significant economic impact on Pueblo. This impact is due to the local spending of race participants who reside outside of Pueblo County. Race participants were surveyed from April to November 2006. The results of these surveys found that:

- Approximately 97.04% of the race participants reside outside of Pueblo County. The race participants spent an average of \$214.19 per person in Pueblo while attending race events.
- The total direct spending by the out-of-county race participants was estimated to be \$1,728,513.
- The total economic impact of Pueblo Motorsports Park was \$2,481,421. This figure is higher than the 2005 estimate of \$1,518,000. Race activity at Pueblo Motorsports Park created 49 new jobs in Pueblo. Economic activity associated with Pueblo Motorsports Park also generated up to \$235,645 in indirect business taxes.

Background of Pueblo Motorsports Park

Pueblo Motorsports Park is a multipurpose racing facility located west of Highway 50, off Pueblo Boulevard. The majority of the race participants come from outside of Pueblo County, with some participants coming from as far away as New Zealand. The park has a 2.2-mile road course, a drag strip, and a motocross course.

Currently, Pueblo Motorsports Park is owned by the City of Pueblo. The non-profit management group, Pueblo Motorsports Incorporated, PMI, runs the park. PMI was organized in 1973 to promote the park. There are eight members on the board of directors of PMI. Rex Harvey is the president of PMI, and Jay Gilman is the vice president, as well as the PMP general manager. The board of directors meets once a month to discuss scheduling and other park business.

The first event to take place at Pueblo Motorsports Park was a car show in September of 1973. Construction began on the track and drag strip in 1974, and was completed in the fall of 1975. The city and county raised \$175,000 of the money that was used for construction. The park was completed through the creative and economical use of funds, and by the hard work of countless volunteers. Pueblo Motorsports Park held its first drag race in September of 1975. Pueblo Motorsports Park has continued to provide racing excitement to fans in Pueblo for 31 years. Since the track is 31 years old, PMI would like to update its facilities to current standards.

Pueblo Motorsports Park Race Participants

The first step of our project was to survey race participants. Dr. Duncan developed a survey that was given to all of the race participants. The survey was distributed to race participants between April and November, during the 2006 race

season. A total of 473 race participants filled out and returned the survey. The survey was designed to give an estimate of the average spending of race participants who reside outside of Pueblo County. Some of the surveys were incomplete, so they were removed from the totals. The survey asked questions such as:

1. Where the race participants reside?
2. How long they would attend the event?
3. How many people were in their group?
4. How much was spent at different establishments while in Pueblo?
5. Which hotel the race participants stayed at during their visit to Pueblo?

According to the results of the surveys, the majority of Pueblo Motorsports Park race participants, 97.04%, resided outside of Pueblo County. The remaining 2.96% of race participants resided in Pueblo County. Race participants resided in cities from Pueblo and throughout Colorado. A small percentage of race participants were from out-of-state, and there were even two race participants from New Zealand. Table 1 provides a breakdown of the counties where race participants reside. The percentages reported in Table 1 are based on a sample of 473 race participants.

| Table 1 County of Residence of Race Participants | |
|---|--------|
| Residents of Pueblo County | 2.96% |
| Residents of Other Counties | 97.04% |

Economic Impact of Pueblo Motorsports Park

The majority of the race participants reside outside of Pueblo County. This large majority of non-local race participants causes a significant impact on the Pueblo economy. Non-local race participants spent an average of \$214.19 per person on things

such as gas, lodging, groceries, and dining. This spending causes Pueblo Motorsports Park to be an export industry, because it is bringing outside money into the local economy. Money brought into the Pueblo economy increases local business revenue, allowing businesses to hire more employees, and raising local household income and spending. Higher household income causes an increase in local demand for goods and services, thus creating a need for more employees in Pueblo. The following paragraphs will show direct spending of non-local race participants and the effect that their spending has on the Pueblo economy.

Local Economic Impact

In order to calculate the economic impact of Pueblo Motorsports Park on the Pueblo economy, race participants were given surveys between April and November 2006. These surveys asked the race participants for the amount that they spent at certain establishments while they were in Pueblo. The surveys also asked where the race participants resided. City, state, and zip code were all requested, so that local and non-local race participants could be identified. On average, 97.04% of race participants resided outside of Pueblo County. The following spending data were calculated based on the non-local race participants.

| Table 2 Out of County Spending | | |
|---------------------------------------|-----------------------|------------------------------------|
| Spending Category | Total Spending | Average Spending Per Person |
| Gasoline | \$35,985.00 | \$45.96 |
| Groceries | \$14,551.00 | \$18.58 |
| Lodging | \$57,937.00 | \$73.99 |
| Dining | \$40,545.00 | \$51.78 |
| Shopping | \$10,162.00 | \$12.98 |
| Other | \$8,531.00 | \$10.90 |
| Total | \$167,711.00 | \$214.19 |

Once these data were calculated, we then tried to figure out the total number of race participants during the 2006 race season. We were only interested in the number of non-local race participants. The total number of race participants for the 2006 season was 8,316. However, due to incomplete attendance data, an average attendance was calculated and applied to some events. We calculated that there were 8,070 non-local race participants. Using the average spending and attendance data, we calculated the total non-local direct spending. Table 3 shows an estimate of the total non-local spending for the 2006 PMP season.

| Table 3 Non-Local Spending for the 2006 Season | |
|---|--|
| Spending Category | Total Spending (Rounded to Thousands) |
| Gasoline | \$371,000.00 |
| Groceries | \$150,000.00 |
| Lodging | \$597,000.00 |
| Dining | \$418,000.00 |
| Shopping | \$105,000.00 |
| Other | \$88,000.00 |
| Total | \$1,729,000.00 |

Total spending for non-local race participants was estimated to be \$1,729,000. This figure represents only direct spending, and it does not include the induced spending that takes place as a result of the inflow of outside dollars. When this money is spent in the Pueblo economy, it results in increased revenue for local businesses and increased income for their employees. This leads to more household income, additional local or induced spending, and more local jobs being created. We then used IMPLAN 2.0 to figure out the total effect on output, employment, and indirect business taxes.

| Table 4 Economic Impact of Pueblo Motorsports Park on Pueblo County, 2006 | |
|---|----------------|
| Total Impact of Non-Local Spending (direct spending + indirect spending + induced spending) | \$2,481,421.00 |
| Total Indirect Business Taxes (direct taxes + indirect taxes + induced taxes) | \$235,645.00 |
| Total Jobs Created (direct jobs + indirect jobs + induced jobs) | 49.2 |

Pueblo Motorsports Park had a total impact of \$2,481,421 on the Pueblo economy, a total of \$235,645 in indirect business taxes, and a total number of 49 new jobs were created in Pueblo County.

Pueblo charges a city sales tax on many of the goods purchased within the city, so Pueblo Motorsports Park contributes to city revenue. Current city tax rates are a sales tax of 3.5% and a lodging tax of 4.4%. The lodging tax is in addition to the sales tax, so hotels charge a city tax of 7.9%. Table 5 shows the city tax generated from direct spending.

| Table 5 Total City Tax Revenue Generated for 2006 | | |
|--|-----------------|---------------------|
| Spending Category | Tax Rate | City Revenue |
| Gasoline | Exempt | \$0.00 |
| Groceries | Exempt | \$0.00 |
| Lodging | 7.9% | \$47,163.00 |
| Dining | 3.5% | \$14,630.00 |
| Shopping | 3.5% | \$3,675.00 |
| Other | 3.5% | \$3,080.00 |
| Total | | \$68,548.00 |

This is a conservative estimate of the city tax revenue generated, because it doesn't include tax revenue from induced spending. The upper end tax impact, that includes tax revenue collected on direct and induced spending, is \$235,645.00. The upper end estimate was obtained from the IMPLAN model. While this estimate is comprised mostly of sales and excise taxes, there is no distinction between state and local taxes. Consequently, we can think that the local tax impact of PMP race activity is between \$69,000 and \$236,000.

Recommendations for Pueblo Motorsports Park

After reviewing the data gathered from the surveys, it was determined that Hampton Inn had the highest percentage of non-local visits. This percentage was followed by Wingate, LaQuinta, and Super 8. Table 6 shows the percentages of the top 4 visited hotels.

| Table 6 Greatest Number of Non-Local Hotel Stays | | | |
|---|----------------|-----------------|----------------|
| Hampton Inn | Wingate | LaQuinta | Super 8 |
| 17.59% | 12.96% | 9.26% | 9.26% |

Currently Pueblo Motorsports Park allows Wingate and Hampton Inn to advertise at the track. We would advise PMI to continue to allow Wingate and Hampton inn to advertise at the track, since they have the highest percentage of non-local hotel stays. We would recommend that they also speak to LaQuinta and Super 8 about advertising at the track, since they also have fairly high percentages of non-local hotel stays.

We would also recommend that PMI get together with the Pueblo Chamber of Commerce and try to promote the Pueblo Motorsports Park in a tourist attraction brochure and add PMP to the Pueblo Chamber of Commerce web site.

Conclusion

An economic impact study was done for Pueblo Motorsports Park in 2005 and the results are different than reported here. The previous study used RIMS II Multipliers and we used a computer program called IMPLAN 2.0. IMPLAN 2.0 allowed us to get direct, indirect, and induced total spending, but RIMS II Multipliers only allow for the calculation of the total impact from direct spending. Our total attendance was higher than the study last year. This might be due to our estimate of total attendance for some races. Our surveys suggested that race participants spent more this year; this could be because we had a larger sample of racers, or because more racers attended events this year.

Pueblo Motorsports Park has a significant economic impact on Pueblo. The park brings in an estimated \$1,729,000 in total race participant spending. The park also contributes \$2,481,421 in total non-local spending, \$235,645 in indirect business taxes, and 49 new jobs to the Pueblo economy. Pueblo Motorsports Park generates an estimated \$68,548 in tax revenues for the city. We would recommend that Pueblo Motorsports Park be given money to update its facility. With an updated facility PMP would be able to capture even more outside, non-local dollars.

Appendix 1

Sample Survey

2006 Survey of Pueblo Motorsports Park

We are collecting information to determine the economic impact of your event on Pueblo's economy. Your responses will be confidential and are appreciated.

Where do you live? City:_____ County:_____ State:_____ Zip Code:_____

How many days will you attend the event? _____

How many visitors are traveling in your group today? _____

During your trip to the race, how much does your group expect to **spend in Pueblo** on the following items?

Gas\$_____ Groceries\$_____ Lodging\$_____ Restaurant\$_____

Shopping\$_____ Other\$_____

What hotel?
