Demographic and I-9 Info Sheet for Hiring Departments

All new employees of the university must complete an electronic demographic sheet and Form I-9 before their job offer or non-student hourly request can be initiated by the department.

Demographic Sheet

The demographic sheet is online through our secure form portal located at the link below. Paper forms are not accepted.
https://docimageweb.csupueblo.edu/CSUPUEBLOFORMS/portal/162

Please note, this is considered an 'external link', meaning it will not work on the CSU Pueblo network. All new employees must complete this e-form from an off campus computer.

The form itself is vital for building the employee's eAccount. This form alerts the Office of Human Resources (HR) that the employee's information needs to be entered into AIS, which in turn generates a PID (personal identification number). It also informs the IT department that an eAccount needs to be built or altered (if a former student or employee) for the incoming employee to grant them network access.

After the e-form is submitted by the employee, the supervisor listed on the demographic sheet receives an email when the PID is created, at which time the department can initiate the job offer or non-student hourly request. Once the PID creation step is complete, the e-form moves to the HR Review step before being sent to IT.

HR must receive and process the following information before moving the form from HR Review to IT account building:

- Fully completed new hire paperwork
- Job offer letter signed by the employee or fully approved non-student hourly request
- Directory information that includes office phone and on-campus mailing location

When all of the above has been processed by HR, the form is sent to IT for review. After IT has completed their portion of the process, HR receives notification to confirm the NetID number in the system and approve the form to be sent by email to the employee for NetID activation. The employee receives an email auto-generated by the Filebound system with instructions on how to activate their NetID. The email sender address is hr@csupueblo.edu. Please note, it can take up to 24 hours from NetID activiation for employees to gain access to email, computer login, etc.

Human Resources
Administration Building, Ste. 307
(719) 549-2441

Institutional Equity
Occhiato Student Center, Ste. 201E
(719) 549-2679

Below is an example of the Net ID activation email the employee receives:

Hi [Employee Name]

Your data has been entered into our HR System and you now have a NetID. You must activate your NetID to activate your university email.

Your NetID is _____. Please follow the instructions here:

Go to https://www.csupueblo.edu/information-technology/help-desk/net-id-password-help.html. In the light blue box, click on New user? Click for more details and follow steps to activate NetID.

Thank You
CSU-Pueblo Human Resources & Institutional Equity

Form I-9

Form I-9 is a federal requirement from the Department of Homeland Security (DHS).

All employees must complete page one no later than the first day of employment and physically present their ID(s) to the Office of Human Resources. Form I-9, like the W-4, has expiration dates and is continuously renewed by U.S. Citizen and Immigration Services. As a result, requirements are subject to change in the future.

Failure to return the employee completed portion of the Form I-9 to CSU Pueblo within the timeframe established by DHS could result in a minimum penalty of $237 to the employee, as well as the department, if such failure is discovered through an Immigration and Customs Enforcement (ICE) I-9 inspection. Additionally, every Form I-9 that is in violation after the first discovered violation in the inspection could result in a per-form/violation fine up to a maximum of $23,607. If such fines are incurred, they will be billed to the employee's department.

It is also important to note that every uncorrected Form I-9 that has errors will be treated as 'continuing violations' by the agency, which means that ICE considers all of them when assessing the fine amount.

We highly encourage all departmental support staff to take the Form I-9 training sponsored by U.S. Citizenship and Immigration Services. The free employer training demonstrates and explains each portion of Form I-9, as well as has a discussion to answer any questions you may have about the completion process. Visit https://www.e-verify.gov/about-e-verify/e-verify-webinars.

Additional Information

ULM Diagram

How an account is processed between applications:

This process diagram show the timing and interaction to create a new account for an employee of CSU Pueblo.
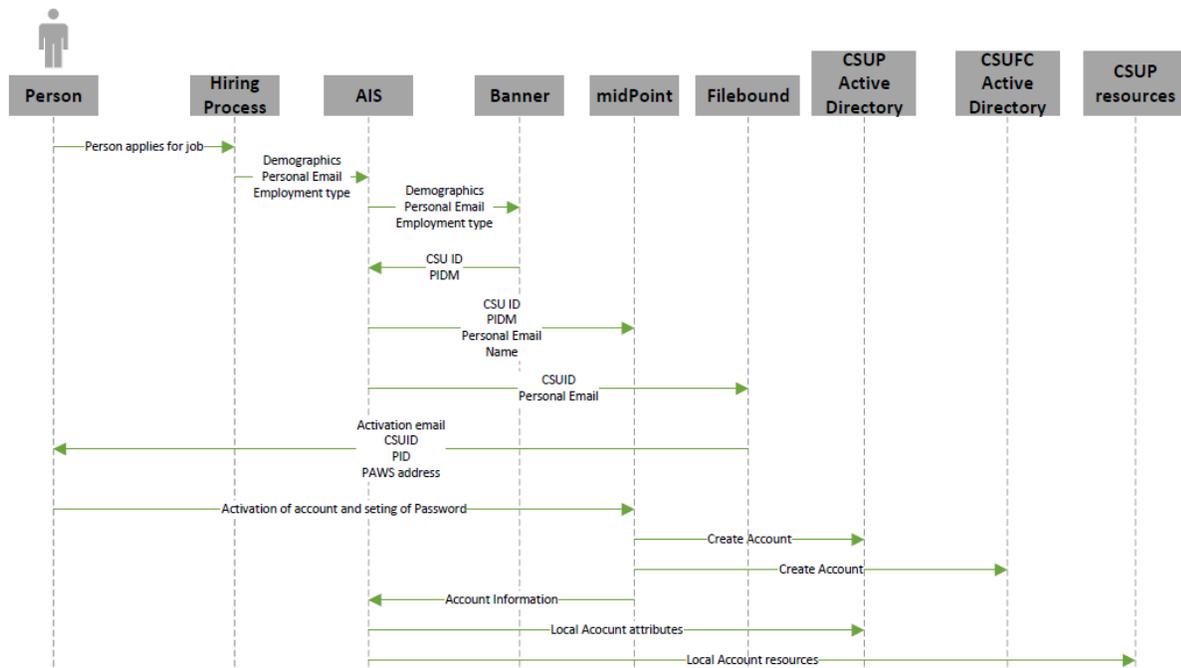

Workflow

Workflow of demographic form process following submission:

Start

PID Creation
Demographics form is sent to the HR for review. If accepted, it will be sent to ITS-ISS for review.

Notes
HR reviews and creates PID for new user.

Approve

PID Created

Notes
Email gets sent to employee supervisor to let them know that a PID was created for their new employee so that they can start the job offer creation process.

HR Review
Demographics form is sent to the HR for review. If accepted, it will be sent to ITS-ISS for review.

Notes
HR reviews and inputs all AIS items for employee.

Cancel

Approve

Reject

New Employee or former/current student

Yes ▾

Notes
Decision to see if employee was a former or current student for CSU-Pueblo. If yes then it will go to ITS-NSS for account flip. If not it will go to ITS-ISS for processing.

ITS-NSS Review
Demographics form is sent to the ITS-NSS for review. If accepted, it will be sent to ITS-ISS for review.

Notes
ITS-NSS review to flip account.
