

COLORADO STATE UNIVERSITY - PUEBLO  
2011-2012 ACADEMIC YEAR  
COURSE, PROGRAM and DEPARTMENT FEES SCHEDULE

Course Fees are those mandatory non-campus-wide fees that a students must pay to enroll in specific courses (e.g. lab fees, music fees, art fees and materials fees). Course fees are charged for costs incurred to support a specific course [in all its sections] and must be used for costs directly related to the course for which they are charged.

Program Fees are those mandatory non-campus-wide fees that are not specific to a course but rather are related to the instructional program or college. Program Fees are intended to cover costs in multiple courses within a program over multiple years,

Department Fees are those mandatory fees assessed by an institution to all students who enroll in a particular department (e.g., the engineering department) within the institution. The revenue generated by this charge should be used to pay for costs related to the specific department.
