

COLORADO STATE UNIVERSITY PUEBLO

Extended Studies

Certificate - Construction Manager

OVERVIEW

The Construction Management BS Degree is designed to prepare students for entry level positions in the heavy/civil or Commercial/Residential construction management industry.

Non Construction Management Majors who wish to build their construction management knowledge in various discipline specific areas can obtain a certificate in Construction Manager.

LEARNING OUTCOMES

Recipients of a certificate will gain a deeper understanding of the current major issues affecting the construction industry. The student will be exposed to the important skills and knowledge necessary to be a manager in today's construction industry.

The Advanced Construction Manager Certificate is intended to enhance a current construction industry professional's body of knowledge with advanced construction industry skills. Interested students must consult with a Construction Management Program approved advisor prior to registration to ensure adequate entry level skills.
