

Organizational Leadership, Bachelor of Applied Science

OVERVIEW

This online (2+2) program is designed to enroll students holding a broad range of Associate degrees who are seeking a Bachelor's degree providing knowledge and expertise applicable to advancement in administration, leadership, management and supervision in a variety of organizations including business, government and non-profit organizations.

The curriculum includes course work from across the leadership spectrum including literacy of basic organizational functions such as accounting, economics, communications technology, marketing as well as management of human resources, operations and projects. Leadership topics are brought into the curriculum both through targeted coursework regarding leadership theory and practice and through leadership components included as part of related courses. The transfer and credit for prior learning policies are intended to give maximum acknowledgement and academic credit for prior education and experience reducing time and expense for completing the degree.

PROGRAM ENTRANCE REQUIREMENTS

1. Applicants must have completed an Associate's level degree such as an Associate of Arts (AA), Associates of Science (AS), Associate of General Studies (AGS), or an Associate of Applied Science (AAS) Degree from a regionally accredited Institution of higher education with 60 credits minimum.
2. If not completed as part of the required Associates degree students must complete a set of lower division leveling courses which are a prerequisite foundation for upper-division BAS courses, and can be included as part of the open-electives.
3. Upper-division transfer credits counted towards the degree requirements must be transferred from a regionally accredited Institution of higher education.

PROGRAM ENTRANCE REQUIREMENTS

1. Develop skills and knowledge regarding leading and managing people in organizations.

2. Develop awareness of personal characteristics including your personality, leadership characteristic, information processing style and other relevant characteristics, biases and predispositions.
3. Recognize strategies for organizational success in a variety of environments, such a business, government and non-profit industries.
4. Build expertise for ensuring ethical organizational culture.
5. Improve problem-solving and critical thinking knowledge and skills.
6. Practice implementation of leadership and management theory, philosophy and practice through course-work, case analysis, group/team activities, industry collaboration and academic simulations.
