

Content Area: Science (Indirect)

Grade Level Expectation: High School

Standard: 3. Earth Science Systems

Evidence Outcomes: Develop, communicate, and justify an evidence-based scientific explanation addressing questions around the extraterrestrial forces and energies that influence Earth.

Content Area: Mathematics (Direct)

Grade Level Expectation: Fifth Grade

Standard: 2. Patterns, Functions, and Algebraic Structures

Evidence Outcomes: Graph points on the coordinate plane to solve real-world and mathematical problems.
