CSU PUEBLO Education Course

---

CSU PUEBLO Instructor

---

Date

The CSU PUEBLO School of Education student named above is completing a field experience or student teaching in your child's classroom. As part of the requirements for becoming a teacher, she/he will be working with students under the supervision of your child's classroom teacher. As a tool for becoming an effective teacher, this student will videotape herself/himself teaching. Because your child is a member of this classroom, she/he may appear on the tape.

The purpose of the video is to assist the education student in improving her/his teaching, and videotaping teaching is a common and important tool in teacher education. The tape will be submitted to the course instructor who will view it and give the education student important feedback. At times, other students in the teacher education program may view parts of the tape in order to give additional feedback. The student may include portions of the tape in his/her portfolio, which will be evaluated by other faculty at a later time.

### Informed Consent

I authorize the student named above from the School of Education at the CSU PUEBLO to include my child in taping of her/his lesson. I understand that I can withdraw my permission at any time in the future.
