Guidelines for Supervision

Concerns should immediately be brought to the Director of Student Teaching & Experiential Programming or the Associate Dean for support or guidance.

- All forms should have signatures from all parties (typed will suffice if completing forms digitally)
- Observations should be spread out over the semester you may complete more if you like as supplemental documentation
- Please complete and turn in the packet as one document unless you need to complete additional forms. Your packet is the OFFICIAL copy of the midterm, final, final grade, hour log
- You are asked to complete a **minimum of 15 hours of supervision** over the semester as required for the candidate's licensure.
- You should observe or be in contact with your candidate every week if possible

School of Education Standards

The School of Education is a standards and performance-based model of education. Student outcomes are the foundation of the program, upon which the curriculum, instruction, and assessment are aligned and implemented. Based on its mission to produce teachers of quality and distinction, the program has adopted the Teacher Quality Standards (TQS) that have been approved by the Colorado Department of Education. Each standard has been articulated into a series of performance-based elements that all students must achieve before completing the program.

Teacher Quality Standards

Graduates of the School of Education at Colorado State University Pueblo build effective learning communities in which all learners thrive and develop to their maximum potential. In accomplishing this, graduates demonstrate mastery of the following:

TQS I: Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

- I.A. Teachers provide instruction that is aligned with the Colorado Academic Standards and their district's organized plan of instruction.
- I.B. Teachers develop and implement lessons that connect to a variety of content areas/disciplines and emphasize literacy and mathematics.
- I.C. Teachers demonstrate knowledge of the content, central concepts, inquiry, appropriate evidence-based instructional practices, and specialized characteristics of the disciplines being taught.

TQS II: Teachers establish a safe, inclusive and respectful learning environment for a diverse population of students.

- II.A. Teachers foster a predictable learning environment characterized by acceptable student behavior and efficient use of time in which each student has a positive, nurturing relationship with caring adults and peers.
- II.B. Teachers demonstrate an awareness of, a commitment to, and respect for multiple aspects of diversity while working toward common goals as a community of learners.
- II.C. Teachers engage students as individuals, including those with diverse needs and interests, across a range of ability levels by adapting their teaching for the benefit of all students.
- II.D. Teachers work collaboratively with the families and/or significant adults for the benefit of students.

III.B. Teachers use formal and informal methods to assess student learning, provide feedback, and use results to inform planning and instruction.		
	III.C. Teachers integrate and utilize appropriate available technology to engage students in authentic learning experiences.		
	III.D. Teachers establish and communicate high expectations and use processes to support the development of critical-thinking and problemsolving skills.		
	III.E. Teachers provide students with opportunities to work in teams and develop leadership.		
	III.F. Teachers model and promote effective communication.
