

CSU PUEBLO

partnering to expand resources

Purpose: The Office of University Operations is excited to seek partners to help advance our academic mission through increased financial sustainability.

Potential Partnership: Dining

As part of our ongoing efforts to improve campus life, the Office of University Operations is reviewing a new scope of work from **Aladdin Campus Dining** in anticipation of our current dining contract's conclusion.

Proposal Foundation

Streamlined Systems & Student Support

- Meal plans will follow a Declining Cash Balance (DCB) model, offering flexible use at all campus dining locations and encouraging sustainable, responsible spending.
- Upgraded point-of-sale systems with mobile app access will provide real-time balance tracking.
- A campus-wide communication plan will support students with reminders and education on maximizing their plans.

Exciting Opportunities

- Aligned with the Event Management proposal, Aladdin will offer integrated event space and catering services for external clients.
- Aladdin also plans to partner with celebrity chef Fabio Viviani to enhance dining experiences and is committed to hiring locally, including CSU Pueblo students.

Our Commitment

The Auxiliary Services Office is dedicated to supporting and furthering the University's goals.

Commitment to Our Community

We are committed to supporting our students, employees, and local community through intentional collaboration.

Commitment to Financial Stability

We aim to enhance services while improving cost efficiency and long-term sustainability.

Commitment to Transparency

We are dedicated to clear communication and accountability throughout this process.

Join Us in Advancing
Academic & Financial
Excellence

The Office of University Operations invites campus stakeholders to engage with us in this strategic partnership initiative. Together, we can improve student experience, reduce costs, and create lasting value for our academic community.
