DISTINGUISHED PROFESSOR PROFESOR DISTINGUIDO

The **Distinguished University Professor** award is the university's highest honor bestowed on a faculty member. The award recognizes teaching, research, scholarship, creative activity, and service to CSU Pueblo and the community. The designation as a Distinguished University Professor remains a formal title that follows faculty members into retirement and then becomes Distinguished University Professor Emeriti.

CSU Pueblo has awarded the Distinguished University Professor award to three recipients. The inaugural recipient was **Dr. Kevin Duncan**, professor of economics in the Hasan School of Business. He received the honor in 2020 and was recognized for his 25 years at CSU Pueblo and demonstrating sustained exceptional performance in teaching and student research. The second recipient was **Dr. Alegria Ribadeneira**, professor of Spanish and Director of World Languages. Dr. Ribadeneira was recognized for her research-infused teaching in 2021. **Dr. George Dallam**, professor in the School of Health Sciences and Human Movement was the third recipient, earning the designation in 2022. Dr. Dallam was recognized for his significant research efforts in nasal breathing versus oral breathing during exercise.

El premio al Profesor Universitario Distinguido es el honor más alto que la universidad otorga a un miembro de la facultad. El premio reconoce la enseñanza, la investigación, las becas, la actividad creativa y el servicio a CSU Pueblo y la comunidad. La designación como Profesor Universitario Distinguido sigue siendo un título formal que sigue a los miembros de la facultad hasta la jubilación y luego se convierte en Profesor Universitario Distinguido Emérito.

CSU Pueblo ha otorgado el premio de Profesor Universitario Distinguido a tres destinatarios. El destinatario inaugural fue el **Dr. Kevin Duncan**, profesor de economía en la Escuela de Negocios Hasan. Recibió el honor en 2020 y fue reconocido por sus 25 años en CSU Pueblo y por demostrar un desempeño excepcional sostenido en la enseñanza y la investigación de los estudiantes. El segundo destinatario es la **Dra. Alegria Ribadeneira**, profesora de español y directora de Idiomas del Mundo. La Dra. Ribadeneira fue reconocida por su enseñanza basada en la investigación en 2021. El **Dr. George Dallam**, profesor de la Facultad de Ciencias de la Salud y el Movimiento Humano, fue el tercer destinatario y obtuvo la designación en 2022. El Dr. Dallam fue reconocido por sus importantes esfuerzos de investigación en la respiración nasal versus la respiración oral durante el ejercicio.

HISTORY OF ACADEMIC REGALIA

HISTORIA DE LA REGALA ACADÉMICA

Academic regalia recalls the Middle Ages when scholars were clerics and wore the costumes of their monastic orders. The hood was originally a cowl attached to the gown and could be slipped over the head for warmth. The cap, originally round, later became a square mortarboard.

Today, the cap is the same for all degrees from the same institution, except that the tassels for doctors often are gold. The gown varies for the respective degrees. The bachelor's gown is worn closed and has long, pointed sleeves; the master's gown is worn open and the forearms protrude through slits in the elbows of the sleeves; and the doctor's gown has sleeves, which are full and bell-shaped and carry three horizontal bars and features a velvet panel draped around the neck and stitched down the front edges.

The velvet panel and velvet sleeve bars of the doctor's gown are either black or the same color as the velvet border of the hood. The hood also varies for the respective degrees. The doctor's hood is the longest and of fuller shape than the others. It is usually bordered with velvet, the color of which indicates the kind of degree: arts of letters, white; chiropractic, gray; oratory, silver; divinity, scarlet; education, light blue; engineering, orange; fine arts or architecture, brown; law, purple; medicine, green; nursing, apricot; music, pink; philosophy, blue; and science or science in engineering, yellow (golden). It is lined in the colors of the college or university from which the degree was granted.

La vestimenta académica recuerda la Edad Media cuando los eruditos eran clérigos y vestían los trajes de sus órdenes monásticas. La capucha era originalmente una capucha unida a la bata y se podía deslizar sobre la cabeza para calentarse. El gorro, originalmente redondo, se convirtió más tarde en un birrete cuadrado.

Hoy en día, el birrete es el mismo para todos los grados de la misma institución, excepto que las borlas del doctorado suelen ser doradas. La toga varía para los grados respectivos. La toga de licenciatura se usa cerrada y tiene mangas largas y puntiagudas; la toga de la maestría se lleva abierta y los antebrazos sobresalen a través de aberturas en los codos de las mangas; y la toga del doctorado tiene mangas, que son amplias y en forma de campana y llevan tres barras horizontales y presenta un panel de terciopelo que cubre el cuello y cosido en los bordes delanteros.

El panel de terciopelo y las barras de las mangas de terciopelo de la bata del doctorado son negras o del mismo color que el borde de terciopelo de la capucha.

El birrete también varía para los respectivos grados. El birrete del doctorado es la más larga y de forma más completa que las demás. Suele estar orlado de terciopelo, cuyo color indica el tipo de grado: artes de letras, blanco; quiropráctica, gris; oratoria, plata; divinidad, escarlata; educación, azul claro; ingeniería, naranja; bellas artes o arquitectura, marrón; ley, púrpura; medicina, verde; enfermería, albaricoque; música, rosa; filosofía, azul; y ciencia o ciencia en ingeniería, amarillo (dorado). Está alineado con los colores del colegio o universidad en el que se otorgó el título.
